

POLYMER IN DAIRY & HATCHERY

Plastic is everywhere, Polymer finds its ways to help in the Dairy and hatcheries:

APPLICATIONS

FEEDING TRAY

Anulon 92 Polypropylene feeding trays are used as they are food grade, non sticky and very hygienic. These trays are very easy to clean and lasts for a very long time.

PP Flooring

Anulon 92 PP Flooring is used on the floor where the animals can stand as this flooring is anti bacterial, easy to clean and there is no non solvent that can stick on this, making the material completely non sticky. These sheets are weatherproof and sturdy.

ANULON®
