

POLYMER IN FOOD INDUSTRY

Plastic is everywhere, Polymer finds its ways to help in the food industry:

ANULON®

APPLICATIONS

CUTTING BOARDS

Anulon 92 Polypropylene cutting boards are used in the industry as these boards are food grade and non stick in nature. These boards can take the impact of the blades very effectively and gives a very long lasting life and does not damage the blades.

CONVEYOR PARTS

Anulon conveyor parts used in various parts of the conveyors to guide material as they move around the plant.

Anulon 94 UHMWPE / Anulon 94H HMHDPE / Anulon 92 Polypropylene materials are used for these purpose.

- STARS are made to change the direction of the bottles.
- CONVEYING SCREWS
- CHAIN LINKS
- ROLLERS
- GEARS
- and many more

LINERS & GUIDE PLATES

Anulon 94 UHMWPE Liners and guide plates are used in various parts where smooth flow of materials is required. These food grade non stick materials are perfect to use in the food industry.

ANUFLEX CURTAINS

Anuflex transparent strip curtains are used on the gates and windows of conveyors as these curtains allow smooth flow of materials between different rooms and at the same time maintaining the temperature and of both the rooms and does not allow dusts to pass through.

More polymer applications

- **Polycarbonate Roofing**
Sheets for day light saving
- **Anulon 98** Geomembrane
