After submitting a claim, you will receive a claim acknowledgment letter via email (or regular mail if no email is provided) providing the claim number, adjuster's name, and contact information.

Important: Nurse Triage Services and their reports to Diamond do not replace your accident investigation and good communication with Diamond, which are necessary to prevent accidents, control workers' compensation costs, and assign claims to the proper adjuster. Most importantly, Diamond needs to know the employee's work status ASAP after he/she receives medical care.
