

To whom it may concern:

I would like to take this opportunity to recognize Jeffrey Borglum and his fantastic local company, Techie Dudes. Jeffrey and his team provide high-quality computer repair and IT services to residential customers and small business owners.

Jeffrey founded Techie Dudes after realizing homeowners and small business owners were underserved when it came to their computer repair needs. Since then, Techie Dudes has provided computer repair, data storage and recovery, new computer setup and small business IT services to all the suburban cities west of Minneapolis.

Although the services Techie Dudes provides are great, it is truly the staff that sets it apart. Jeffrey and his team have extensive knowledge of the industry. In fact, Jeffrey personally has over 30 years of experience in the IT and data center business. The team is also very responsive and will get the job done in a timely manner.

Not only is the team at Techie Dudes dedicated to providing its customers with the highest level of service possible, it is also committed to giving back to the community. It supports several local causes, events and organizations including the Polar Plunge for Special Olympics, White Bear Lake High School Basketball, Children's Performing Arts, White Bear Lake Educational Foundation, Northwoods Humane Society and more.

I recommend Jeffrey Borglum and his team at Techie Dudes with confidence to any homeowner or small business owner in need of computer repair or IT services. You can count on them to get the job done promptly and efficiently, at a price you can afford!

Sincerely yours,

Blaine Stephens
