

## ***The Universal Classroom: Earning Your Degree of Understanding***

The Quantum Professors and Mystics in these decks serve the LIGHT and are ready to assist you in earning your **Degree of Understanding**—all they need is your invitation! Let them demonstrate their presence as they engage with you in wise, witty, and wondrous ways.

---

### ***What is Quantum Universum? And Why These Professors?***

The Latin word *universum* means “to be turned into unity”—a single whole. Historically, a university was a place to receive a universal education within a physical institution. At **Quantum Universum**, the entire universe becomes your school.

Each of these Professors and Mystics has volunteered to be of service to you. They are here to teach, guide, and inspire you on your journey of discovery.

**Quantum Universum** isn't about passivity. It's a place of **active exploration**. You'll need to “earn your grades” and dive into the lessons. Often, your syllabus and evidence will be hidden in plain sight, waiting for you to notice.

---

***“You are an aperture through which the universe is looking at and exploring itself.”***  
— Alan Watts

### ***Your Mission***

1. **DIVE IN:** Let go of preconceived notions.
  2. **BE:** Focus on how you are being—open, curious, and receptive.
  3. **DISCOVER:** Trust the process. Let your Professors lead and uncover the wisdom they offer.
- 

### ***Guidelines for Engagement – BEING is Key***

To connect with the Quantum Professors, focus on your state of **BEING**. It doesn't matter what you do if you don't know how to BE!

- **BE** open.
- **BE** curious.
- **BE** joyful.
- **BE** patient.

- **BE** grateful.
  - **BE** findable
  - **BE** LOVE.
- 

### ***How to Begin***

1. **ASK:** Simply invite the Professors to work with you.
  2. **WHAT IF?** Embrace curiosity and suspend judgment.
  3. **LOVE:** The frequency of LOVE builds the bridge to the Professors.
- 

### ***Practical Steps for Exploration***

- **Research Your Professors:** If you're unfamiliar with a Professor, look them up online. Their lessons, gifts, and wisdom await discovery.
  - **Ask for Guidance:** Before researching, say, "Guide me to the messages you want me to find."
  - **Engage in Meditation:** Invite your Professor into your meditation and jot down any insights.
  - **Seek Evidence:** Ask for signs of their presence. Trust what comes, even if it seems subtle or surprising.
  - **Dive Deeper:** Study their quotes, writings, or favorite things. Explore their life, and see what resonates with your own.
  - **Focus on Images:** Examine the images on their card and look up their spiritual meanings.
- 

### ***Special Tips***

- **Repetition Matters:** Drawing the same Professor repeatedly means they have more to teach.
  - **The ??? Card:** This unique card invites you to connect with a Professor not in the deck. Close your eyes and ask, "Who wants to work with me today?" Trust the first name that comes to mind.
  - **Daily Practice:** Choose one Professor per day and allow them to work with you.
-

### ***A Personal Note***

This deck was inspired by someone in Spirit who said:

**“We are here, we want to help, and no one is asking. We need you to let people know.”**

With their guidance, I created these decks to encourage you to ask: To invite those across the veil to make their presence known in wondrous ways and to share gifts of wisdom. **What if?**

Thank you for joining us on this adventure!

**Yours in perpetual discovery,  
Cheryl Page**

### ***A Few Final Thoughts***

“It is one of the commonest of our mistakes to consider that the limit of our power of perception is also the limit of all that there is to perceive.”

— *C.W. Leadbeater*

“You can’t depend on your eyes when your imagination is out of focus.” — *Mark Twain*

“Absence of evidence is not evidence of absence.” — *Carl Sagan*
