

The Believe Award

Recognizing those who believe in a future without childhood cancer.

What Is the Believe Award?

The recognition program was created by the Foundation to honor individuals, Lions clubs, and supporters who make a \$1,000 cumulative contribution to the foundation's mission of helping children and families affected by cancer.

How the Believe Award Works

The award is presented to clubs or individuals who donate \$1,000 to the foundation. It serves as both a recognition of generosity and an encouragement for continued support of childhood cancer initiatives. Recipients receive a commemorative award!

Why It's Called the Believe Award

Believing in a future without childhood cancer. Believing in better treatments and survivorship outcomes. Believing that communities can make a difference for children and families facing cancer.
