

MN Lions Childhood Cancer Foundation Business Cards

These directions should guide you through the process of printing your own business cards. Not knowing everyone's skill level, these will be for everyone!

Step 1-Secure your blank business cards.

These can be purchased from any office supply store or office supply department within big box stores. (Secretly, I've even purchased them from thrift stores to have on hand!)

Step 2-Choose your version from the two.

Ver. A	Ver. B

Step 3-Load desired number of blank pages in your printer.

You will ONLY be printing one side at a time.

Step 4-Open document(s)

Page 1, Ver. A or Ver. B

Page 2, Your Info (skip if only printing one side)

Step 5-(skip this step, if only printing one side).

Load the above printed sheets in your printer, making sure they are in the right direction, and you avoid accidentally printing on the wrong side. (speaking from experience!)

Step 6-Break them apart and pass out to friends, family and elevator chats!
