

These are estimated numbers from the website for an under 10 lbs puppy for All Life Stage food or the grain free version. You don't need to buy the puppy variety.

In any case you want to feed lesser than recommended on bag as your puppy will get loose stools if fed too much!

If you get diarrhea or very soft stools cut back in feeding

You want to feed 3 times per day until 5-6 months

Estimated number of days for 8 lb. bag: 19 days

Estimated number of days for 20 lb. bag: 49 days

Estimated number of days for 40 lb. bag: 97 days

We recommend you buy the 20 lb. bag, which will last you approximately 49 days. If you go on autoship, we recommend the 7 weeks autoship frequency. You can always adjust the autoship frequency if needed.

I recommend to take the als

or if you prefer the grain free food then you will have to buy it separately.
