

BUCKLE UP...THE TYRANNICAL CONTROL TO HOLD ONTO POWER ENTERS THE NEXT LEVEL

State Central Delegates/Alternates,

You won't believe this. In the middle of the night Tuesday, Secretary Jenna Dicks and National Committeeman Alex Plechash were served with bogus unfounded charges for their removal. We suspect that those orchestrating this move may be acting as proxies for Chair David Hann, Deputy Chair Donna Bergstrom, and National Committeewoman Barb Sutter. It appears to be a calculated effort to create a distraction, shift attention away from themselves, and challenge delegates who question their authority.

Before the mysterious overnight charges were served to Plechash and Dicks, a special state executive meeting was called for Wednesday night. This meeting included a roll call vote on whether to include the charges (which should have only applied to Hann, Bergstrom, and Sutter) on the agenda for the December 9th meeting.

Surprisingly, the only two state executive members in favor of adding the charges were **CD2 Board Member Joseph Ditto** and **CD4 Board Member Mark Bishofsky**.

Secretary Jenna Dicks wisely abstained due to the conflict of interest arising from the baseless removal charges served in the middle of the night.

National Committeeman Alex Plechash was absent as he is currently in Israel with an RNC Delegation.

Hann, Bergstrom, and Sutter all voted against the motion of adding their own removals to the agenda, showcasing a clear act of self-preservation.

In a late Wednesday evening email to state central delegates and alternates, Hann misleadingly referred to the charges served to him, Bergstrom, and Sutter as 'anonymous.' However, this is completely false. As you all know, it was I, Larry Doose, who served these charges upon those three officers.

Are these really the people we want leading our party?
