

# TRUTH: CHAIR HANN'S NEVER TRUMP ALLEGIANCE ENDANGERS REPUBLICAN VALUES

President Trump's visit to Bemidji on September 18, 2020

State Central Delegates/Alternates,

In 2016, President Trump won 78 of Minnesota's 87 counties and came within 1.5 points of winning our state's 10 electoral votes. President Trump inspired 1,322,951 voters to come out during the 2016 election cycle - especially in greater Minnesota.

And those voters in greater Minnesota still stand strongly with President Trump. Greater Minnesota is Trump country.

Yet, we have a state party chair who is a Never Trumper and in his first interview after he was elected in October, 2021 - he told the Pioneer Press we are not the party of Trump.

*Minnesota GOP Chairman David Hann poses for a*

## **But wait, there's more...**

At the SCC meeting in Elk River on August 12, 2023, I had a conversation with Chair Hann, seeking his views on the 2020 election and the prospects of a 'BIG RED WAVE' in 2022. He expressed strong criticism for Trump's challenge to the election, making derogatory comments about the former President. Additionally, Chair Hann dismissed the notion of a significant red wave in 2022, attributing it to Republicans not voting, suggesting they were 'brainwashed' by Democrats regarding the 2020 election.

When questioned about the fairness of the 2022 election, Hann implied it was fair despite receiving fewer votes. Another Republican recounted a conversation where Chair Hann admitted to voting for Trump with reluctance, stating he had to 'hold his nose.'

The concern arises whether someone with such evident disdain for our former President and potential 2024 candidate should be leading the MN GOP.

# MN GOP leaders not interested in Trump visit before the election

Top Republican leaders in Minnesota aren't hiding that they are not interested in former President Donald Trump coming to Minnesota before the election. The Scott Jensen for governor campaign earlier this week gave what could be called a lukewarm reception to Trump's endorsement, and Republican Party of Minnesota Chairman David Hann says:

"The Jensen campaign has not sought after, or encouraged, or asked for an endorsement or any assistance from Donald Trump."

Hann says the Jensen campaign is focused on the skyrocketing crime rate, horrible economy and high heating costs and "whatever Donald Trump may or may not say, that's kind of irrelevant to that effort."

## **DID YOU KNOW...**

**During the 2019 State Party Officer elections, former Deputy Chair David Pascoe did not run for a second term to serve as MN GOP Deputy Chair because he could not support Trump and did not feel it would be right to remain in party leadership?**

With many media outlets and polls stating that Trump has a significant lead and is likely to be our GOP nominee, how can we have a state party chair who has such disdain towards our former President?
