CURRENT INTERN

“This internship has been pretty amazing and taught me more than I could have imagined. I learned how to work better with extemporaneous speaking, to figure out how to work outside of the box, even more about the liquid gold that we all know and love, and so much more! If you know any high school seniors, recent graduates, or college students with a love for maple, I highly, and I mean HIGHLY recommend this internship to them, as this organization helped me out a bunch, and I know they will be willing to help out the future of maple as well.” -Nicholas Williams
