

# CENTRAL PACIFIC

Two-point Azimuthal Equidistant Projection

This projection shows true distances and directions from Taipei and Honolulu. Any line passing through these cities shows true distances between two points.

Dashed red lines show 1000 km rings centered on Okinawa, Guam, Midway, Oahu, Tokyo, Singapore, Manila, Pago Pago, Port Vila, Wake, and Darwin.

1000 km is roughly one flight hour at 570 mph or one steaming day at 24 knots.

Scale = 1:45,000,000
