Affirm this voice often to build on its strength and consistency.

Heart - Mind

Harmony of the heart and the mind is what propels us into our best selves and best lives. Pay attention to how much you rely on each for decision making. How can you bring more balance and synergy to this? Do your thoughts tend to overwhelm your emotions or vice versa?

I AFFIRM:

MY MIND AND HEART LOVE BUILDING ON THEIR STRENGTHS TO CREATE MY MOST DIVINE LIFE.

HEART-MIND

The heart and the mind are most efficient when they work together. Yet, it can be hard to achieve harmony between them if you are not in a centered and balanced state of being.

Be aware of how your mind may be overpowering the heart with too much logic and not enough play, or how the heart could be overpowering the mind and causing naivete in areas where there may need to be more logic.

Find your balance by learning more about your own unique expression of each and finding a more cohesive flow through breathwork, meditation, tai chi or any other strategies for heart-mind coherence.

Ground Into The Divine

Don't buzz away little bee! Honor your ideas and dreamy visions by grounding them into action. Create a solid foundation for your inspirations and then get to work one step at a time. Mother Earth is strong beneath your feet.

I AFFIRM:

I AM PUTTING MY IDEAS INTO ACTION AND LETTING MY SPIRIT ROOT INTO DIVINE EMBODIMENT.

GROUND INTO THE DIVINE

It is time for some much needed discipline and structure to get your plans organized in order for them to be fully manifested!

Create a rough outline or blueprint for the immediate, short-term and long-term goals that you have. From there you will have a more conscious direction toward the progress you desire.

Without intent and organized focus, the spirit cannot guide the mind and thus the mind cannot guide the body. Choose a few daily mantras paired with aligned actions that will help build momentum towards the goals related to your blueprint.

This will fast track your path in more ways than one.

MASTER YOUR MOOD

Stop spinning your wheels and harboring stressful emotions, drop into the present moment and relax into stillness to tame any triggers that have been coming up for you.

You are going through a time in your life where you are being forced to face the spectrum of your emotions so that you can understand what makes you tick and what ticks you off!

Your emotions are literally energy-in-motion and carry valuable information about what balance you need in order to find your center. Honor what you learn from this and notice how things simplify.

Consider purchasing the Letting Go Workshop in the [virtual store](#) for extra assistance in releasing stubborn emotions, connections or trauma.

Master Your Mood

In a world of such diversity and intensity, it is easy to become emotionally overwhelmed by the storms in life. Take time to study the patterns of your emotions, tame your triggers, and master your mood to find peace. Everything is going to be okay.

I AFFIRM:

WHEN THE WORLD AROUND ME FEELS INTENSE, I MUST FIRST QUIET THE NOISE WITHIN THAT MAY BE AT PLAY.

Set Me Free

What does liberation look like for you at this moment? Etching a path to freedom is exciting and even intimidating at times but it's important not to let that hold you back from necessary change. Take a few steps toward your liberation every day. Do more of what you want. Your spirit will thank you for it!

I AFFIRM:

I AM SETTING MYSELF FREE OF ALL THAT IS BLOCKING ME FROM THE EXPERIENCES THAT I ENJOY.

SET ME FREE

What does freedom mean to you and what makes you feel free? If you could do anything at all, right now, what would it be and why?

Journal about this and let your writing show you the keys to your freedom! Now it's time to take initiative and step out of your comfort zone so that you can actually embody your freedom!

What are some things from your journaling that you can begin to incorporate into your life right away? When one longs for liberation, the first step is often to release the cages of comfort that have been blocking the way.

What cages are you ready to walk out of today?

Hear more about my personal liberation journey with [this song](#).

The Chakras

The energy shifts within your being are important to notice at this time. Take care in how your energy is flowing and where there may be blockages or tension in certain chakras. Sending love and light to each chakra can help you find divine flow in any moment.

I AFFIRM:

BY CHECKING MY ENERGY FLOW OFTEN, I ENSURE MY MIND, BODY, AND SPIRIT ARE PROCESSING THINGS FULLY.

THE CHAKRAS

Feel the power of each of your chakras as you breathe up and down your spine. Inhale up through the Root, Sacral, Solar Plexus and into the Heart, Throat, Third Eye and Crown as you exhale back down through them all. Where do you feel the most energy or the least?

How does your breathing shift and your emotions surface as you move through each chakra point? Do some research on the ones you feel are needing your attention the most.

When you identify which of your chakras are most powerful and which are the most constricted, you can use this knowledge to guide you in activating those chakras with diet, meditation, yoga and other chakra centered practices.

REVEAL

Vulnerability is an incredibly courageous act, yet society has conditioned many to be emotionally unavailable in order to avoid the fears and pains of heartbreak.

In what ways have you shielded yourself from deeper connection and genuine communication? Take a moment to reflect. What was the result of that choice to not reveal your full self?

Imagine what life could feel like and what you might experience if you peel back the layers and start letting people in.

Revealing all that you are is very valuable to the relationships that you hold near and dear to your heart. Have that difficult conversation, face that uncomfortable feeling, honor the energy of your deepest truth and SHARE it! It will be worth it in the end!

Reveal

What aren't you opening up about? Reflect on the walls that may be blinding you from seeing yourself fully or forging the deeper connections you are seeking at this time. What is the cost of keeping these walls up? Reveal rather than conceal. You are braver than you think!

I AFFIRM:

I STEP INTO THE COURAGE TO GROW AS I FEARLESSLY EXPAND MY CAPACITY TO BE VULNERABLE.

Merkaba

You are held in an electromagnetic field of protection called your Merkaba! This energy holds a specific sacred geometric pattern that keeps you secure, safe, and able to travel infinite realms of consciousness. Call on your own Merkaba and set an intention for what you want it to do for you today!

I AFFIRM:

I AM CONNECTED TO THE MAGIC OF MY MERKABA AND ALL THAT I CAN DO IN ALIGNMENT WITH IT.

MERKABA

Imagine a beautiful spinning pyramid covering the top of your body, and another spinning pyramid positioned top down encompassing the bottom half of your body.

Intersected and in sync, both pyramids form a metaphysical chariot around your body. The top pyramid is spinning to the left and activating the sacred masculine energy within your spirit, as the bottom pyramid spins to the right, activating your sacred feminine energy. Close your eyes and feel the power of your merkaba waking up! Practice this regularly!

You can use your Merkaba as a form of protection, a vehicle to other realms, and to ground in any intentions for desired transformation of your energy.

Spirit Team

There are angels and guides all around showing you the way and keeping you safe on the journey. Speak to them and notice how their whispers lead you to the next new and exciting phase of growth and clarity! Call on them whenever you need additional guidance. They are always supporting you.

I AFFIRM:

I HAVE NOTHING TO FEAR. I TRUST THAT MY GUIDES ARE NEAR. I AM SAFE TO FOLLOW THE PATH THEY PAVE.

SPIRIT TEAM

Everyone has a Spirit Team composed of Source, Higher Self, Guardian Angels, passed on loved ones, ancestors, ascended masters and other multidimensional beings who are available to provide support when needed.

People often feel spiritually abandoned, disconnected and alone when they are in crisis because they haven't learned how to call on their guides for assistance. It is imperative to create conversation with your highest vibrational guides and welcome them into your life. They respect your free will choice to call on them and thus you must be the one who initiates it.

Asking questions and expressing your thoughts, emotions and conflicts to your guides through meditation, journaling and simply just setting the intention to connect daily, will open the channel of communication between you and them so that you can hear them and feel their love fully.

DREAM TIME

Dreams are powerful indications of what the many realms of our consciousness may be focusing on most presently in our lives.

Recognizing the symbolism and significance of your dreams have the potential to guide you to a deeper understanding of what you are encountering in your waking experience.

This card invites you to begin a dream journal to write down what you remember from your most noteworthy dreams. In time, you will notice that your dreams become more vivid and easy to remember!

You may also find that patterns emerge from your dreams and your dream journal may begin to show you even more about the symbolism and significance of these patterns in your consciousness and further yet, your soul's path.

Dream Time

You are merging with higher consciousness as you sleep. Many realms are accessible to you now as you explore your capacity to astral travel, lucid dream, and download messages from your Oversoul for new wisdom. Don't be afraid to use this gift for all that it can unveil to you.

I AFFIRM:

I ENJOY EXPLORING THE MANY REALMS OF CONSCIOUSNESS THAT MY DREAMY TRANCE ADVENTURES BRING ME.

Past Life Presence

There are one or many past life memories that contain wisdom for deep healing, well-being, and empowerment in your present life experience. Take some time to reflect on any dreams, meditations, or new interests that may be activating this remembrance.

I AFFIRM:

I AM RECOVERING DISTANT PARTS OF MY PAST THAT REMIND ME OF THE POWERFUL PRESENCE I HAVE AT ALL TIMES.

PAST LIFE PRESENCE

Have you been attracted to unfamiliar locations, hobbies, cultures or eras in time that feel incredibly nostalgic to you? These may be memories of your past lives guiding you to revisit important information that your soul may need right now.

To better connect to these details, follow the signs, travel to the locations, research the cultures and eras of time that are calling you, dabble in some of the hobbies that feel aligned and allow yourself to rise into a meditative state of being as you do. Set the intention to connect to that which you are meant to remember and allow your energy to merge with the energy of the experience.

Practice this and notice how pieces of your past lives begin to surface. If you are having trouble connecting to your past life selves.

If you would like additional assistance, you can schedule Past Life Readings by Rissa [here!](#)

Cosmic Consciousness

Did you know that you are connected to the stars? 'As above, so below' attests to this as do many spiritual teachings! Whether you feel a deep interest in astrology or are seeking contact with your Galactic Family, lean into the curiosity of your cosmic awakening!

I AFFIRM:

I ALLOW MY STAR CONNECTIONS TO SHOW ME MORE ABOUT MY SOUL PATH AND MY COSMIC SELF.

COSMIC CONSCIOUSNESS

Levels of cosmic consciousness are awakened within us as we evolve spiritually throughout our lives. Our interests in what lies beyond our planet and even farther outside of our awareness begins to call us deeper into our unique connection with the cosmos and all that exists in the Universe. As we evolve in this way, we begin to decide how we want to perceive that information and how far we want our curiosity to take us.

This card encourages you to check in with what level of cosmic consciousness you have activated thus far (stargazing, astrology, ufology, ancient cosmic teachings, starseeds, etc) and intuit if you have been feeling called to learn more. Maybe you have had some powerful astral dreams, or have started to feel more moon sensitive lately, or even seen a UFO! These, and signs like it, may be cues from your Cosmic Self that your Galactic Guides are welcoming you into more knowledge of all that exists amidst the stars. Follow what path feels most exciting to explore and see where it leads you!

Schedule a Cosmic Connections Reading by Rissa if you'd like more guidance!

HIGHER SELF

Imagine what your Higher Self looks like; the purest positive potential of you, and how they live their life. What do they love to do? Who do they hang out with and where do they enjoy spending their time? What mindset have they adopted and what kind of perspectives do they have on life? How do they resolve conflict and what sparks their ambition?

As you use your imagination to fill in these details, the image and essence of your Higher Self is revealed. These details do not dawn on you by accident, these are the actual aspects of that energy speaking to you and through you because it IS you! The stronger the focus on this image of your Higher Self, the more familiar you get with it and the more it sends you inspiration and guidance on how to embody it!

As you deepen this connection with your Higher Self, speak to it regularly and see how easily the information comes through! You are aligning more and more with this Divine essence of yourself everyday!

Higher Self

Your purest positive potential is present as a guide for you to help you become all you came here to be. You are being called to communicate and specifically connect with your Higher Self at this time for the guidance and clarity that you need; particularly regarding your soul power.

I AFFIRM:

I OPEN MY HEART TO RECEIVE GUIDANCE FROM MY HIGHER SELF AS IT NURTURES AND UPLIFTS ME AT THIS TIME.

Miracles Manifest

If you want it, you can receive it, but you must believe it! Manifestation is a co-creation with Source. Decide what you want, ask and pray for it. Then embody the desire by molding it into existence with thoughts, emotions, and inspired actions that feed it. The world is your playground.

I AFFIRM:

I AM CO-CREATING MY MIRACLES WITH SOURCE AND MATERIALIZING THE VISION HERE AND NOW.

MIRACLES MANIFEST

YWhat miracles do you wish to see in your life? Write them all down. The things that seem impossible or unlikely, the dreams and desires that you've hidden deep within your heart; they are crying out for your attention, your belief!

Reluctance to ask for the changes you want to see in your life is a result of conditioning that has kept you playing small. However, do you realize that your desires are inspirations conceived by Source and your Spirit to be birthed from your heart and into this world?! In-SPIRIT-ation! What a powerful co-creation! By writing down the miracles you want to manifest, you wake up the creative life force of the desire, activate the magnetic power of the heart and flow that energy down your arm, into your hand, through the pen and onto the paper! Try it!

Write ten of your biggest desires down, big or small, keep the list with you and read it regularly. Notice how new ideas and inspiration show up to help manifest these miracles into existence!

Jump

It's time to take a leap of faith! Let this be a sign that the risk you face could be worth the reward, but only if you fully commit to the belief it takes to cultivate the outcome you want! Spirit is calling you forth in a big way to embody uninhibited trust! So forget what you have to lose and just jump!

I AFFIRM:

I AM READY TO TAKE A LEAP OF FAITH! SPIRIT HAS BEEN AND WILL ALWAYS BE MY SAFE SPACE TO LAND.

JUMP

Jumping can be scary, but so can staying in the same place! Reflect on the timeline of what both of those options look like for you right now. This card is letting you know that it is time to dive into what you've been tip toeing around. Having one foot in and one foot out, will only produce the same lack-luster results.

Dedicating your full focus to the new level of success you want to experience is crucial and it's encouraged to remember that once you Jump, you are ALL in, no turning back, no second guessing. This is the very essence of dedication that creates a solid foundation!

Spirit is inviting you to take the leap and have faith that you have plenty of know-how to help you land safely and with grace. Trust fall into loving support from the Universe and it will surely guide you on the path of least resistance. You may not have all the answers you want, but you will always have the answers you need, let that be enough and just JUMP! I even wrote a song about how to trust in your leap of faith!

MYSTIC POTIONS

Your word is your wand! When you express energy through your voice or communicate it with your body, you are emitting the frequency of that energy into the world to be directed and embedded into reality.

Truth is, you are always working magic! It's natural and automatic but not always conscious and deliberate. Start to recognize the words you speak, the songs you sing, the body language you display and ask yourself how much of that aligns with the reality you are wanting to live in. Then, shift your expressions accordingly. As you do, you become the alchemist and download new frequencies and new magical gifts to be used for continued evolution.

This mystical mastery is ready to show you the incredible power you have to mold your experience in the ways you declare! Claim your Victory & your Magic!

Mystic Potions will have me dancing in the stars with you when you [click here](#)!

Mystic Potions

You are ready to experience the wondrous spectrum of magic, mysticism, and alchemy! There is a formula you are meant to discover that acts as a conduit for your work. Spell, song, dance, and prayer are all examples of the diverse ways you can activate your mystic potion and unleash your alchemical craft.

I AFFIRM:

I AM A MAGICIAN, A MYSTIC, AN ALCHEMIST. I CAN BEND ENERGY AND INFLUENCE MY EXPERIENCE ACCORDING TO WHAT I WISH.

Abundant Space

Focus your attention on a place of prosperity that you can travel to in your mind's eye. Manifest the abundance you seek by appreciating the abundance that you are. When you are capable of cultivating riches internally, you will find much more ease and magnetism in manifesting those riches externally.

I AFFIRM:

I TRUST IN MY ABILITY TO USE THE ABUNDANT SPACE WITHIN ME TO CULTIVATE AND MANIFEST ALL THE PROSPERITY I SEEK.

ABUNDANT SPACE

The attitude of gratitude is a powerful force that helps to wipe out any energy of lack inside or outside of you. If we aren't happy with what we have and what we've already been given, how can we expect Source to give us anything else? We are an extension of Source energy and thus It's creative power, therefore we must take accountability for our part in the co-creative process Only then, can we begin to see that our attitude, emotions and actions are ways we communicate with Source to draw in more of what we desire through the Law of Attraction.

Like attracts like, so as you assume the energy of abundance, you attract that which you have affirmed yourself to be! Try living as if you already have all that you seek, embody the bliss, confidence and satisfaction of having it and then thank Source for bringing it to you, even if you don't see it in the physical yet, it WILL show up as you continue to affirm it energetically!

Labyrinth

Life is a winding road; an organized maze that is unexpected yet systemic.

If you are feeling a bit lost, it's an indication that you have forgotten you are both the Seeker and the Sage of this labyrinth of life you follow. When you can relax into all the beautiful elements, things will make sense again!

I AFFIRM:

AS I RELAX INTO EACH STEP I TAKE, I FEEL MORE CONFIDENT IN MY DIRECTION.

LABYRINTH

Are you surrendered to the unknown, the unexpected flow of life? Or are you trying to force order out of chaos? When we go against the current of our natural progression through life, we end up getting swept up in stress, confusion and conditioning that leads us deeper into the maze. When feeling this way, it's best to find your way back to clarity by simplifying the things you are feeling influenced by. Looking at everything from a place of serenity and simplicity allows the dust to settle and the path to become clear.

The natural elements of this world; water, fire, earth, air and ether are here to remind us of the simple aspects of our being that we tend to over complicate when things feel hazy. Water represents our emotions and the energy of cleansing. Fire represents our intense expressions and inspired passions to move forward. Earth represents our physical body and actions that carry us on our path. The air represents both our intellectual mind and the knowledge we carry to help us strategize and problem solve with logic. Finally, Ether represents our Spirit, our intuitive essence that connects us to all things physical and beyond for our multidimensional awareness and harmony. These elements can be complex, but as you reflect on simple harmony of these elements in your current situation and ask what they each need in reference to how you are moving through your experience, you may find a solution to what has been feeling most lost.

INNER CHILD

What does your child self need most for its healing? If you could go back and nurture your younger self in the most fulfilling way, what would you do, what would you say? Your inner child wants to play, laugh and adventure with you in all your experiences, yet it needs to feel loved and valued in order to be healed from its wounds.

Are you hard on yourself? Do you find yourself taking things too seriously or ignoring urges to be silly and have fun? Or maybe it's that you tend to have too much fun, where there isn't much focus on safety, security or stability?

Write a healing letter to your inner child to give it the love and invitation it needs to be seen and appreciated fully. By addressing its wounds, wrapping them in love, and creating harmony in it's expression, your inner child will reward you with vitality from it's ever-flowing fountain of youth!

Inner Child

- 111 -

Your inner child wants to help you amplify your quality of life, yet there is healing and reconnecting that is needed first. Examine this with a brave and resilient attitude to nurture yourself back into the peace and freedom of your childlike innocence and wonder.

I AFFIRM:

IT IS OK TO NURTURE AND HEAL MY INNER CHILD BY GIVING IT PERMISSION TO FEEL SAFE IN ITS PUREST EXPRESSION.

Shower of Light

- 222 -

Bathe yourself in Light! Visualize and allow the infinite lumination of Source to rain divine love, abundance, and cleansing onto you now. Source light can clear pain, tension, anxiety, toxic energy, or anything else that has been holding you separate from your highest vibration.

I AFFIRM:

I AM RINSED IN THE GOLDEN WHITE LIGHT OF THE DIVINE. IT IS PROTECTING ME, HOLDING ME, AND GUIDING ME ON MY PATH.

SHOWER OF LIGHT

When life gets you down and your heart is feeling heavy, it can feel challenging to find a smile or a reason to shine your light. However, it's these darker times that need the light most! This card is letting you know that whatever circumstances you are facing or any aspects of your experience that feels in need of positive energy will greatly benefit from your deliberate focus on calling in Source Light.

Imagine the shower of light and direct the flow of positive energy wherever it needs to go. You can even send this light towards another person, place or thing. This simple act allows you to openly reconnect to the infinite Source Light that is always available and flowing through you. When you remember that soul truth and begin to embody it, you will see powerful results show up in a multitude of ways for you and whatever you choose to Shine your light on.

For added inspiration, listen to 'Shine-Shine' that I wrote as my muse for this card.

Love Unconditional

- 333 -

Love unbound from conditions is the most transmuting force in the universe. It is pure, honest, holy, and has the power to manifest miracles! Welcome unconditional love into your heart and release any resistance that may limit the divine expression of love.

I AFFIRM:

I AM LOVE UNCONDITIONAL. I AM THE IMPENETRABLE FORCE OF DIVINE LIGHT. I DO NOT FEAR LOVE BECAUSE I AM LOVE.

LOVE UNCONDITIONAL

When you open to receive all that love has to offer, all the ups and downs, all the ways it can express itself-and accept the lessons that they provide, without condition-that is when you are truly free!

Love is life force energy! If ever you feel down, tired or uninspired, try focusing on something that you have incredible love for and breathe deeply in as if to fill yourself up with that love, then exhale deeply to release any resistance to receiving that level of love.

Within 1 minute of this practice, you will begin to feel the transmuting power of love as it reinvigorates your spirit! This card indicates that unconditional love is available to you and ready to nourish your heart center with all of its healing energy.

Let the love in!

CYCLES OF CHANGE

Have things been shifting a lot lately? Some changes are predictable and intentional while others can be unexpected and accidental. Either way, the wisdom to be gained is not so much about what is changing in your life as it is about your actual relationship with change itself.

When things shift, do you honor the changes and move forward? Or do you resist it and cling to the old way?

This simple self reflection through the cycles of change can be great for finding grace in adaptation under any circumstances. When we gain this level of clarity, we are often able to find peace with whatever the present changes may bring us.

This also may be an indication that you are repeating cycles that are not serving your highest good and its time to reflect on the repeated lesson that Spirit is desperately trying to teach you so that you can learn from it and finally evolve from the looping cycle.

Cycles of Change

- 444 -

It is time to accept what is shifting in your life so that you can flow with the natural progression of your path. What is meant for you will be. All else can be released until it shows itself again. Just as the seasons cycle within Mother Earth, cycles of change flow through our lives and our being. We are creatures of change so why resist it?

I AFFIRM:

THOUGH CHANGE CAN BE UNCOMFORTABLE, I ALLOW MYSELF TO ADAPT GRACEFULLY TO ALL THAT IS SHIFTING FOR ME.

Web of Light

- 555 -

You are a part of a beautiful community of light beings here to help raise the vibration of humanity. You are calling in more and more of your soul tribe as you continuously step into your divine purpose and soul path. As you become more of your true self, you find more of your true tribe.

I AFFIRM:

I AM ATTRACTING MY WEB OF LIGHT SOUL TRIBE IN DIVINE TIMING AND DIVINE ORDER.

WEB OF LIGHT

Do you have a deep longing to find your soul family? Those kindred spirits who you know will just GET you? This card is indicating that you have recently met or will soon meet some or all of them! These people will grab your soul's attention and make you like you have a special mission or purpose to play in each other's life and possibly even for the world! Together you will encourage each other to evolve in a multitude of ways that will provide valuable wisdom to all involved.

Embrace your soul family and soul mate relationships and do some of your own research on the many types of soul contracts that can bring people together throughout lifetimes. As you follow your intuition, you will also discover more about the soul bonds you share. This can help you feel even more certain of how to best play your part in your most impactful relationships. Try this; write a list of 3-5 of the most influential relationships you've had in your life. Then, for each of them, reflect on what you think may be the purpose of each of those relationships.

What are they there to teach you, what are you there to teach them, how have you grown from them? Notice how these answers begin to show you more about what type of soul contract you may have made with them! Meditate on this and see what else may come up for you!

Shadow Work

- 666 -

It is ok to be imperfect, flawed, and scarred. In fact, it allows for a beautiful rebirth. The repressed parts of you are rising to the surface to be seen and accepted as the warrior stripes that they are. Honor all that you have been through by appreciating the wisdom and wealth you've gained.

I AFFIRM:

I HONOR THE SPECTRUM OF DUALITY THAT EXISTS IN ALL OF CREATION SO THAT I MAY BE WISE IN ALL OF MY EXPERIENCES.

SHADOW WORK

Facing what's hiding in the shadows, the things that are heavy, imperfect and insecure; isn't as daunting as it may seem. It's actually quite beautiful and necessary when we realize that it can help us to activate our resilience AND our righteousness. When we are able to accept that duality is a natural aspect of our essence and learn to understand it rather than resist it, we find a deeper capacity for self love and love of this Universe! How high you are wanting to vibe, depends heavily on how deep you are willing to dive. It takes a true Luminary to honor this 'as above, so below' relationship between the Light and the Shadow.

This card addresses the flaws and dark truths about yourself or others that have been revealing themselves to you. Try listing these less than Light aspects of your life and journal about what thoughts, emotions, behaviors that they are bringing up for you. Notice the things that trigger you to express more of your shadow self and brainstorm ways to balance those reactions with more alignment to your Higher Self, the purest positive potential of you. It may be that these things are coming up for you in order to motivate a stronger connection to your higher consciousness and elevated quality of life.

Take a musical Shadow Work journey with me here!

BIGGER PICTURE PERSPECTIVE

This card is advising you that you've been hyper focused on something that is distracting you from seeing what's really going on. There is a solution to what you have been wanting to sort out yet your one-track mind has kept you from discovering it. What would it look like if you took yourself out of the equation and looked at things from an outsider's perspective?

If you removed all the pressure, stress and emotional investment in what you are observing and instead, saw it through the eyes of your Higher Self, Spirit Guides or better yet, Source!

By seeing things from an expanded and more exalted view, you notice that there is a much simpler way of navigating your experience. You realize that you are able to move through your circumstance with grace and ease once you are less attached to the outcomes or the need to control every part of the process. You become more surrendered to what Source has planned for you because you are now able to see the bigger picture perspective! What a relief!

Holistic Healing

Immune boost with naturopathic and spiritual wellness! Right now, your body may need healing and well-being through natural remedies and energetic assessment. It's a great time to check in with a holistic healer for anything that has felt a little 'off' lately.

I AFFIRM:

IT IS NATURAL AND EASY FOR MY BODY TO HEAL AND CLEANSE ITSELF. I AM HEALTHY, WEALTHY, AND WHOLE.

HOLISTIC HEALING

This card indicates that your Higher Self is guiding you to focus on a more natural approach to healing the body, mind, heart, and Spirit. Western medicine is wonderful for many emergency and critical interventions however when addressing the cumulative approach to well being and wholeness, naturopathic options can be most advantageous.

Reflect on your overall health and well being and ask yourself what aches, pains or discomforts you have been ignoring that may be needing your attention at this time. Holistic healing is heavily focused on preventative medicine and encourages one to actively know and listen to their body as it expresses what it needs. Why wait for your immune system to have to tell you it needs a boost, or for your diet to create negative effects on your digestion before deciding it's time for a change?

It may also be important for you to research some of the emotional and spiritual causes of any ailments you may be experiencing right now. You may find that most of what you are needing for your optimal health is much easier to obtain than you think. An herbal supplement, a shift in your focus, a reiki energy cleanse; any of these could be the remedy you have been looking for!

The [Shining Light on Holistic Healing Series](#) can also offer more on this.

CLEAR THE FEAR

Let your reverent faith in the Light drown out any energy of separatism, panic or paranoia. This card invites you to clear the fear that you have exposed yourself to.

Fear is an energy that can quickly pollute our faith and leave us feeling confused and uncertain of our power. At this time, there are entities and collectives on this planet who use fear as a means to control and oppress our spiritual sovereignty. It is imperative that we see through these manipulations and detach from any programming that attempts to tether us to the matrix that feeds them.

By reminding ourselves of the ways our faith performs miracles and our connection to Source manifests greatness, we transcend fear for the sake of freeing our Divinity and the Divinity of the collective! If you notice yourself or others experiencing fear try this mantra; "I am Divinely protected by my Higher Self, Guides & Source. My faith is strong. My Light is my shield".

Burn some sage or palo santo for added cleansing and protection. Breathe deeply as you feel you raising your shields in energetic protection. The more you practice this mantra and visualization, the more you will start to see and feel your energetic shields show up for you. Have fun with this and know you are safe, secure and supported!

Clear The Fear

When given the fuel to prosper, fear can attack the immune system, disrupt the balance of the mind, and upset the harmony of the heart. Your light is your armor. Clear your fears by replacing them with affirmations of faith in your strength.

I AFFIRM:

I RELEASE ANY TOXIC FEAR FROM MY BODY, MIND, AND SOUL SO THAT I MAY REMAIN STRONG AND SOVEREIGN IN MY SPIRIT.

Auric Distancing

Exercising discernment is crucial for protecting your energy and keeping your aura strong. Notice if you feel icky around certain people or in certain environments and maintain your auric distance. You can still send love from afar.

I AFFIRM:

IT IS OK TO LOVE FROM A DISTANCE AND TAKE SPACE FROM WHAT DOESN'T FEEL GOOD TO MY AURA.

AURIC DISTANCING

This card is urging you to take some space and time away from certain people, places and environments that have been draining you or making you feel less connected to your true self. Honor the distance needed in order to see things from a clearer perspective, less influenced by their energy.

The space and time you take may actually be the best and most peaceful solution for all. When your heart feels closed off or shut down by your interaction with something outside of you, this indicates that it is not in vibrational harmony with you. There are many reasons for this and it may be important for you to reflect on what about the frequencies are not in harmony and why so that a deeper wisdom is found.

The reality is, as you mature spiritually, your aura becomes more sensitive to which energy is or isn't in alignment with yours. Whatever your aura decides, it will let you know and it is up to you to either honor or resist it's conscious discernment. It's often how we handle this choice that makes the greatest impact on our lives in regards to what we decide to attach ourselves to and thus, what path we follow in life. So, what will you choose?

Truth Seeker

The veil is thinning and more truth is being disclosed. Are you seeing through the illusions and delusions in your experience? Or are you hiding from the truths you feel in your heart? It's time to face the harsh realities of your present moment experience.

I AFFIRM:

I HONOR THE TRUTH I FEEL IN MY HEART.
I AM NOT AFRAID, I AM EMPOWERED.

TRUTH SEEKER

Source has been nudging you into a rabbit hole of hidden truths that your Spirit Guides have prepared you for. As you uncover these truths, enjoy the process of intuiting what feels most true within your heart. All beings are not meant to share one truth, but instead, come together in the appreciation of many. This open-mindedness is what will greatly benefit your ability to sort out new information in the most balanced way.

Keep your ego in check during this time of activation as well. Be cautious as to not allow judgements, assumptions or ulterior motives to muddy your perspective. Keep your outlook & intentions pure and this time will be a very eye opening and awe inspiring chapter in your enlightenment. It is also important to be attentive to your energy and how it shifts as you absorb new truths.

If at any time you start to feel overwhelmed, anxious or unstable from what you are learning; be sure to take a break from all the information input. Get grounded by focusing on something calming and comfortable for a little while so as to not over stimulate your consciousness past its natural pace of expansion.

WARRIOR WORLD

You have spiritual strengths beyond measure and right now you are being trained and tested on how to use them to the fullest! This kind of activation can entail trials and tribulations that threaten us with distraction, fear and insecurity. However, when we choose to nurture our resilience to those psychic attacks and push past our perceived limitations, we instantly embody our warrior self and empower our confidence in our survivor skills!

Life doesn't get easier, we get stronger and better at rolling with the punches. Don't let these challenges bring you into a victim mentality, instead remember that you were given the precise set of skills and access to consciousness needed to help you rise above the war and claim your victory! There is nothing in this life that we cannot handle, there are simply challenges that show up to reveal more of our capacity for strength, power and grace.

Enjoy this Warrior World anthem to hype you up even more!

Warrior World

Spirituality doesn't come without its wars, and its warfare doesn't come without its rewards. Tap into the survivor spirit within to protect you in this warrior world. Keep your eyes open, your mind sharp, and your body ready. Remember you are a healer.

I AFFIRM:

I AM A WARRIOR OF LIGHT AND I AM ONE OF MANY WHO ARE HERE TO SAVE THE WORLD.

Disclosure

Inexplicable phenomenon, myths & mysteries are surfacing at this time. Hidden timelines are being unveiled. Surrender to the unknown to peel back the layers that may be disguising you from true reality. Lean in with vulnerable curiosity & relax into the changes that are meant to occur as a result. A new look on life awaits you!

I AFFIRM:

I WELCOME DISCLOSURE OVER DISGUISE TO SUPPORT MY EXPANSION INTO A NEWER AND TRUER WAY OF BEING.

DISCLOSURE

Read the fine print, vulnerability softens experience and exposes the facts. Lean into transparency by both giving it and receiving it. Source has been guiding you to see through the smoke and mirrors of what you are focusing most on at this time. Be honest with yourself about what you know to be true, even if that means being honest about what you have been avoiding.

Disclose what you have been holding in, and accept what is disclosing itself to you. The new information and insight that is gained as a result will shift your perspective on life and offer the transformations that are meant for you at this time. Be like a child and have an open heart and open mind to what you are learning and release judgement or bias that could hold you back from full integration of what you are meant to see and understand.

Call on Spirit to reveal to you what, if any, confirmation bias or cognitive dissonance may be present within your own psyche or the psyche of others around you that could be causing resistance to a disclosure of the truth.

Have patience and grace with yourself as you also release and potentially grieve the old timelines that you may have been clinging to that no longer reflects reality.

AI

Release distraction, increase focus and pay attention. It's time to comprehend things that have been difficult to understand by utilizing a new intelligence system. Use discernment & intuitive awareness to guide you on the most organic & accurate path of action.

True alignment requires true authenticity and what you are facing now is providing you an opportunity to sift through all elements of the circumstance and analyze the experience based on what information is authentic and which information is artificial so that you can align accurately and easefully to what best represents the truest version of you.

This card also invites you to open your mind to the many ways new truths can be revealed to you while also encouraging you to have the balance of trusting your most innate survival skill and your most organic truth test...your intuition. In order to use your intuition confidently, you must be able to courageously clear distracting influences, focus your attention, patiently observe with unbiased neutrality and remain open to the unknown. With consistent practice and integrity of the process, you will become indecievable by any and all systems, groups, programs and influences that have agendas that are not authentic, organic and pure.

AI

You have new access to useful information that may also carry distortion. Examine which information is a catalyst to chaos & which is a catalyst to clarity. Seize this opportunity to get answers & gain support; just be sure to not sacrifice your natural, authentic intuitive guidance system in the process.

I AFFIRM:

THROUGH CAREFUL DISCERNMENT, I AM SORTING OUT ARTIFICIAL ALIGNMENT FROM THE AUTHENTIC ALIGNMENT THAT IS MEANT TO GUIDE ME.

Behold Absence

The absence of proof is not the absence of provision. Have faith in the knowing that even if you don't see proof of what you sense is available to you, the provision is still there; it may just be in a different form than you anticipated. Seek counsel in your trusted allies & guides in both the material & spiritual realms for support. You are not alone & what you can't see does, in fact, exist.

I AFFIRM:

I AM COMFORTED BY THE PROMISE OF PROVISION AND THE PROOF OF WHAT'S BEYOND THAT WHICH I CAN PERCEIVE.

BEHOLD ABSENCE

The unseen world is just as real as the physical. Pulling this card indicates that you have recently felt like you have been missing something important in your life, something that you can sense the presence of but cannot see or feel physically. Whether it's a passed on loved one, a Spirit Guide, a particular goal or desired lifestyle, or even a version of your self that hasn't been actualized yet, this is your sign to know that what you sense is real!

There are Divine spiritual forces that are supporting you now more than ever. Close your eyes, feel them, take counsel with them & sense the support Source has for you. They will help you sort out any distortion and release all bias so you can stand in the confidence of what is.

Source is calling you to trust that these things exist and to know that as you continue to beleive in the reality of them despite a lack of physical evidence, the energy of your faith will continue to increase your perception of them in your life. This is the key to manifestation and the pillar of our connection to the abstract and astral world. Use this as a tool of truth and find comfort in its certainty.

The Master's Tools

You are in a state of heightened sensitivity. Intensities of circumstance & energy are causing friction while launching you deeper into acceptance. Discomfort is triggered for the purpose of encouraging growth. Remember, you were prepared for this! Trust that you know what to do with the tools you have to work any situation into a valuable experience. Now, get to it!

I AFFIRM:

I HAVE AN ABUNDANCE OF TOOLS & TEACHINGS EMPOWERING ME TO STEP INTO MASTERY & ALCHEMY OF ANY & ALL CIRCUMSTANCES.

THE MASTER'S TOOLS

Preparation meets opportunity with this card by reminding you to use the tools you've gained during the training you've been given to support you in the transitions you are currently facing. Transformation is constant and persistent. You cannot grow when things stay the same. Therefore, it is important to recognize the value of growing pains when you experience them.

This card indicates that you have been meeting an edge of your expansion and are ready to fully mature to the new level being presented to you. Life can often be a very uncomfortable and overwhelming experience until you choose to accept new milestones by rejecting the impostor syndrome that may be manipulating you into thinking that you can't handle it. But the truth is...you can AND you have the tools to do it and to prove it!

Remember, new information leads to new tools, new tools lead to new actions, new actions lead to embodied practice which then leads to embodied wisdom and ultimately, a mastered life. Onward and Upward!

UNITY CONSCIOUSNESS

Unconditional love, gratitude and compassion-led forgiveness are three elements that have the power to create unconditional unity and unconditional peace once all beings in the Universe agree to remember this on a soul level. Unity is meant to be universal. It is the foundation of all that is. One Source, one consciousness, one creation.

This card is showing up in your life to invite you to abandon thoughts, emotions or actions that are rooted in antagonistic, aggressive and anti- behavior that may be infiltrating your natural instincts toward unity, love and light. By doing an "anti audit" on yourself of all the things you might be passionately opposing, you can reflect on what you might not have done the work to compassionately assess for more alignment to the higher vibrations of love, gratitude and forgiveness. This practice can work wonders to align you to more Christ and Unity Consciousness. And Remember, unconditional love does not mean tolerance, but it is still important to be able to do your best to see all things through the loving eyes of Creator/Source.

This card may also be indicating that you are in fact one of many representatives of unity consciousness within a world of duality and opposition. As such, this may be your sign to accept and lean into the bridge that you are for healing the gap of separation and accelerating the betterment of humanity and the Universe as a whole.

Unity Consciousness

Don't fall into the trap of separation. Everything comes from a Universal Source that exists in all things. Gratitude in the observation of opposites, the alignment of sameness & the presence of everything in between is a path to unconditional compassion, forgiveness & love. Divine separation is diversity, while distorted separation is duality. Know the difference & make steps toward more unity consciousness today.

I AFFIRM:

I AM IN UNION WITH ALL THINGS IN THE UNIVERSE. I PLAY IN THE SPECTRUM OF CREATION WITH THE POWER OF UNITY CONSCIOUSNESS.
