The HALL MEDpac[®] 5 POINT TRIAGE SYSTEM

Advanced Life Support Training

We provide you full training with a certified nurse in the use of emergency medical equipment, treatment, and pharmaceuticals that can easily save a person from life-threatening situations and injuries. The training course includes interaction with a defibrillator, CPR kit, tourniquets, blood-loss stop materials, and IV fluid setup.

Physician Support

A physician is on call and available to guide you through any issue or injury 24 hours a day, 7 days a week, via phone, internet, or satellite link.

Emergency Medical Equipment

The Hall MEDpac will be personally tailored to suit you, your family, or organization for any terrain, including air, land, sea vehicles, or for urban survival.

Satellite Phone Communications

The Hall MEDpac includes an activated and fully operational Iridium satellite phone with complete global service (internet optional). This phone connects you directly to our emergency physicians any time of day from anywhere.

Global Medical Evacuation

If you need to be physically evaluated and receive emergent medical care outside the US, we will arrange for your immediate evacuation with a private aircraft from anywhere on the planet (optional).

How can the HALL MEDpac[®] help you

DESIGN

The Hall MEDpac is the world's only fully equipped, transportable, "hospital in a suitcase" linked via GPS locator and satellite phone directly to qualified medical professionals around the clock, "on-call" for you.

PHILOSOPHY

Ready to provide immediate, on-site, supervised treatment of accidental and traumatic medical incidents, the Hall MEDpac becomes your greatest advantage enabling you to treat commonly encountered injuries to major medical emergencies. Doctor designed and engineered with world-class medical equipment, training, and emergency assistance, owning a Hall MEDpac is more than just a product or service, but serves to protect and ensure your life.

IMPLIMENTATION

Our team of physicians and nurses are aware that time is a critical factor in saving a life. We also realize that any delay in treatment may be fatal. The Hall MEDpac, when activated and employed in an emergency, becomes your life-saving advantage to reduce delay and to begin immediate medical care enabling you to exercise greater control in an uncertain world.

Dr. Michael Hall, MD • Founder, CEO & Medical Director

Originally from Kansas City, Missouri, Dr. Hall has traveled the world, and it was while practicing medicine in rural New Zealand, he developed the idea for the Hall MEDpac. With a passion to help, Dr. Hall, with his Hall MEDpac, has cared for indigenous Polynesian tribes, assisted the global tsunami relief effort in Sri Lanka, and prepared medical teams to travel to Haiti during the earthquake. Over 20 years of medical research and development, Dr. Hall has developed the Hall MEDpac to provide you the power to save a life.
