MEMORANDUM

TO: Representative Town Meeting

FROM: Conservation Commission

DATE: August 8, 2018

RE: Ordinance to Prohibit Deposition of Waste from Oil and Gas Extraction

At the January 11, 2018 meeting of the Conservation Commission and after a thorough review of information provided by the RTM Fracking Waste Subcommittee and a report of our director, the commission passed a resolution in support of an ordinance to prohibit deposition of waste from oil and gas extraction in Greenwich. Specifically, the following motion was passed unanimously.

Upon review of the extensive research provided by the RTM subcommittee and given that the CT General Assembly did not pass HB 6329, the Conservation Commission supports the banning of waste for oil and natural gas extraction that is currently before the RTM.

Thank you for your consideration of this important issue.
