

No one enjoys paying taxes, but . . .

## WE DO ENJOY

**AN OUTSTANDING SCHOOL SYSTEM, WITHOUT DOUBLE SESSIONS,** and which sends an extremely high percentage of students on to schools of higher learning.

★ ★ ★

**A SCHOOL FOR OUR PHYSICALLY AND MENTALLY HANDICAPPED.** The new Pendleton Avenue School will help our emotionally disturbed and regular students also.

★ ★ ★

**WEEKLY REFUSE PICKUPS AND THE RESULTING NO BURNING BAN.** The days of pickups every 5 to 6 weeks are over, as are the health menace and annoyance.

★ ★ ★

**SAFE STREETS AND PROTECTED HOMES.** A low crime rate and lack of crime in the streets are no accident.

★ ★ ★

**NEW TENNIS COURTS, A RECREATION DIRECTOR** and an expanded program, improving and geared to all ages.

★ ★ ★

**THE CLEAN RIVERS** which the interceptor sewer will mean, the end to emptying raw sewage into our waters, and end to the odor nuisance and health menace.

★ ★ ★

**OLD INDUSTRY STAYING AS NEW BUSINESS COMES IN.** The trend of industry leaving has ended. New business is coming in at a record pace. The new, solid tax base will be enjoyed next year.

★ ★ ★

**YOUTH AND EXPERIENCE,** a rare combination, and a necessity to serve a growing city on numerous levels.

★ ★ ★

**WATER MAIN EXPANSION AND THE NEW CHLORINATING PLANT** aimed at insuring our city will have enough clean water for present and future needs.

★ ★ ★

**GOVERNMENT FOR THE PEOPLE, NOT THE POLITICIANS. THERE CAN BE NO RETURN TO THE "SAME OLD ED."** Political abuse has never altered your present mayor's citizen service ideals.

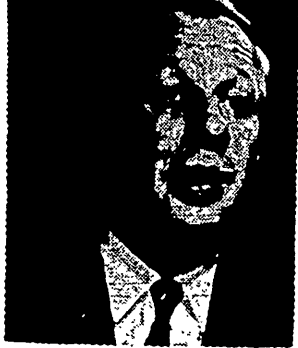

★ ★ ★

**THE SAVING OF NATURAL AREAS.** The Chicopee Meadows and Slate Road "green spots" insure no matter how much concrete is poured, our city will always have areas as nature intended.

★ ★ ★

**THE LITTLE THINGS, THAT MEAN A LOT.** Repaving of pothole valley. New City Hall front. Snow plowing of public pavements, not politicians places.

★ ★ ★

Mayor Richard H.
