

MARTIN LUTHER KING K-8 SCHOOL

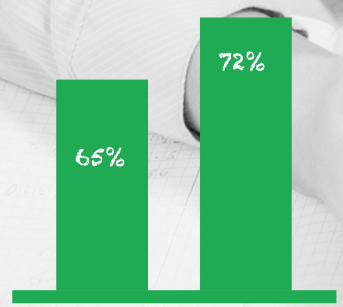

Social Emotional Learning

The King implements an evidence-based **social emotional learning curriculum** with all students to teach students how to maintain positive relationships, cope with emotions, and make responsible decisions. The SEL curriculum is implemented each week in all classrooms/ advisories. The King SEL team meets regularly to review fidelity of implementation and to plan instruction.

When **core instruction** around social emotional learning is implemented with all students, student outcomes improve.

Measurable Results!
