*Is your practice's efficiency
and productivity being affected
by equipment malfunctions
or breakdowns?*

TODS WORKSHOP FRIDAY, OCTOBER 23, 2026

Session #1: 8:30am - 11:15am

Session #2: (REPEAT) 1:30pm - 4:15pm

REGISTER :
www.todsmeeing.com

Blair Desjardins and Henry Schein Service Technicians will be presenting a comprehensive and hands-on workshop on dental office maintenance. We will start off with a presentation touching on all points of interest and tips and tricks on equipment maintenance. Then we will move into smaller breakout groups where guests will get hands-on experience with actual dental equipment and how to troubleshoot and maintain it. This is a fantastic opportunity to spend time with top level technicians and get insider information on troubleshooting as well as emergency situations that can slow down or stop a practice from running. Ideal for all office staff that has any role of maintaining and running a dental practice.

4 HANDS-ON MAINTENANCE BREAKOUT GROUPS COVERING:

- Dental Chair
- Sterilizers (Statim and a chamber sterilizer).
- Small Equipment
- HVE and Saliva Ejectors (valves and O-rings)
- Air/water Syringes (buttons and O-rings)

< LEARNING OBJECTIVES >

- Identify and address basic maintenance requirements for both large and small equipment
- Describe some of the most common problems associated with specific pieces of equipment
- Define the equipment maintenance requirements for your dental office
- Identify the cleaning and disinfection solutions recommended for use on your dental equipment
- Hands-on training on common large and small equipment

This course is sold out each year at the Pacific Dental Conference!
