

## **Club Championship/Victor Ludorum Qualification**

The end of season Club Championship and Victor Ludorum competitions are by qualification only. Qualification for these two competitions is achieved as follows:

**Club Championship** - Lowest Gross and second lowest gross scores in each STROKEPLAY competition. If the two lowest gross scores have already qualified, then the next lowest gross will qualify. If all three have already qualified, then no-one qualifies from that competition.

**Victor Ludorum** – First and second place in each competition qualify (Strokeplay or Stapleford). If they have both already qualified, then the person placed third qualifies. If the person placed third has already qualified, then the person placed fourth qualifies. If all four have already qualified, then no-one else qualifies.

Given the number of entries we are now getting, and the regularity, this means that the better players should be in the Club Championship and everyone has a reasonable chance of making the Victor Ludorum but it is still a competition you have to qualify for, rather than everyone just taking part.

In addition, you need to have played FIVE comps to take part in the Club Championship/Victor Ludorum.
