

HOLLYWOOD GARDEN CLUB

Making Hollywood more beautiful one garden at a time!

May 2018

Member of the Florida Federation of Garden Clubs – <http://ffgc.org> - District XI- <http://browardgardenclubs.org>
National Garden Clubs, Inc., www.gardenclub.org, and Deep South Region

HOLLYWOOD GARDEN CLUB MEETINGS
3RD TUESDAY of the MONTH
Fred Lippman Multi-Purpose Center
6:30 p.m. to 9:00 p.m. -- 2030 Polk Street, Hollywood, FL 33023

What's blooming in your yard? Bring a bloom or plant for a show and tell about your garden to the meeting in June.

NEW DATE FOR Field trip to SUNSHINE BROMELIADS June 30, 2018

Lunch at Cracker Barrel for those interested after the tour.

Orpha & America at Sunshine Bromeliads in 2015

PERIWINKLES are in bloom. They seed themselves and need little care. They do pop up all over but can be transplanted to a better garden spot. Cuttings can also be propagated. They can add a colorful spot anywhere in the garden.

*Happy Birthday
Joanne Ager, Maggy Bravo,
Frank Johnston, and
Audrey Martin,*

Along the way we form lifelong friendships with those who work by our sides promoting the understanding, enjoyment, and appreciation of gardening and the environment.

Membership in Florida Federation of Garden Clubs is open to all regardless of gender, age, race, ethnicity, or religious affiliation

GINGER

This is a family of flowering plants that is truly tropical.

Gingers are a diverse and beautiful group of plants. In South Florida landscape they are perennials that reproduce through underground rhizomes that can spread to adjacent plant life. Ornamental gingers do best in rich, moist soil.

They're typically low-maintenance plants with attractive foliage and colorful blooms that make great cut flowers. They do well in rich moist soil and prefers partial shade.

Butterfly Ginger (*Hedychium*)

Red Ginger (*Alpinia purpurata*)

“Once established, these Florida-Friendly plants little care aside from watering.” This is a family of unique flowers that put on quite a show in the garden.

Siam or Tulip Ginger (*Cucuma alismatifolia*)

Indian Head Ginger (*Costus woodsonii mass*)
