# Greetings from the Chair and MASCC,

It has been a great honor to serve as the Chair of the Mid-Atlantic Chapter of the Society of Cosmetic Chemists. This year, the board and I have been working diligently to fulfill our society's mission of educating our cosmetic science community. We have hosted online tech talks on scientific information, and hosted our first in-person event in Washington D.C. to learn about Japanese beauty.

We are hosting our first virtual Career Day. The purpose of Career Day is to expose students to cosmetic companies in the Mid Atlantic Region in order to jumpstart their future. This is a fantastic way to provide knowledge and opportunities to high school, college, and graduate students.

The MASCC would like to invite your company to participate in our event as a leading cosmetic company in the region. We need you! Students need to see the importance of our industry and how we have impacted the beauty world.

We plan to host this event in October with more details to follow. Please let us know if you are interested in participating in the event.

For more information, please email us at [midatlanticscc@gmail.com](mailto:midatlanticscc@gmail.com) or you can email me directly at [cjohnson@cindyjlabs.com](mailto:cjohnson@cindyjlabs.com).

We also hope you will join us on August 25th for our CEP Course: Phytochemistry for Cosmetic Chemists and Longwood Gardens.

Sincerely,

*Cynthia Johnson*

## Dr. Jat Rana

Chartered Scientist, Fellow  
of Royal Society of  
Chemistry,

 @Jat Rana PhD

Thank you all so  
much for  
attending our  
CEP course!

We hope you all enjoyed learning about  
Phytochemistry from Dr. Jat Rana. We enjoyed  
meeting you all in person both at the CEP course  
and Longwood Gardens.

We would like to thank Dr. Rana for his in depth  
knowledge pertaining to phytochemistry and  
botanicals and curating the material for our  
fellow cosmetic chemists.

A big thanks to our sponsors ACT Solutions Corp,  
Gattefossé Personal Care, Coptis, and Hallstar  
for making this event possible. We look forward  
to working with you all in the future again!

## RAJ PATEL

Business Development Director –  
Cosmetics at Interactifs by Aceto

@Rajesh Patel

Raj Patel, holds a B.S in Biochemistry from East Carolina University and M.A. from Fairleigh Dickinson University. He has been in industry for over 30 years and held various positions from Lab Technician & Project Leader at Unilever to current position of Business Development Director at Inter Actif's by Aceto. At Unilever he worked on Dove, Axe, Caress/Lux, Suave brands and developed / launched Body wash, Shampoo, lotions, soap bars globally and held various patents covering Person Care and Cosmetics.

With strength in product development, he moved to Solvay in 2013, a manufacturer of surfactants and polymers. At Solvay he built a Beauty Group competency and implemented innovation program to support customers in North America. Within this program he led team of scientist to develop formulations as well as full scale product evaluation including sensory performance, foam analysis, mildness analysis and stability testing. Afterward, he moved to business development position supporting sales team as well as developed Body Wash, Shampoo and Foam Wash based on customer briefs. In his current role at Inter Actif's by Aceto he is responsible for exclusive partnership, promoting and distributing active ingredients, benefit agents and growing market share in North America.

He is a proud member of Society of Cosmetic Chemist and regularly attends various chapter meetings. He feels very fortunate to work with Unilever, Solvay and Aceto and gain experience in the industry as technical and business development.

He is looking to further engage with SCC, contribute to Industry, particularly STEM programs and next generation of cosmetics chemists. Outside of work his hobbies include Bicycling, Hiking and Gardening.

## HIGHLIGHTS OF NEXTGEN

- Relationships with more than 20 higher education institutions worldwide that have a focus on cosmetic chemistry and related degrees.
- A full track of sessions at the Annual Scientific Meeting dedicated to NextGen focused topics.
- Continuing education courses held throughout the year, designed to address what early careerists and those new to the industry need to know.
- Significantly discounted student and junior member access fees to local and national events.
- Career development programs, including opportunities to personally connect with potential employers in all facets of the industry – from finished goods houses to material suppliers and contract manufacturers to regulatory agencies.
- National and local chapter opportunities for students to present their research and scientific posters to industry leaders, some of which are afforded scholarships or prizes.
- Opportunities to meet industry and subject matter experts in every aspect of the cosmetics and personal care industry including academia, government, testing/claims professionals, formulators, consultants, legal and insurance specialists, and more.
