About Us

CHARTERED IN

19
67

There are over 90 members in the chapter spread over a large geographical area which includes the states of Delaware, Maryland, Pennsylvania, Virginia, West Virginia, Washington DC, and Southern New Jersey.

The Mid-Atlantic Chapter is not only dedicated to the education of its members but the education and further advancement of the area's students through career days at local universities.

Formulating Natural Sunscreens

JUNE TECHTALK

Speaker Bio:

Cheryl Seidell has spent over 25 years as a Formulation Scientist, specializing in skin care, sun care and color cosmetics. She has held a number of technical R&D roles at Estee Lauder, Burt's Bees (Clorox), as well as with smaller companies in the pharmaceuticals and cosmetic industries, where she contributed to the success of many well-known consumer products. She is currently Technical and Application Manager at Evercare focusing on sun care formulations and SPF technologies. She currently serves as Chair of the Carolina Chapter of the SCC and has presented at several industry events

CHERYL SEIDELL

CCSCC Chair

Presentation Abstract:

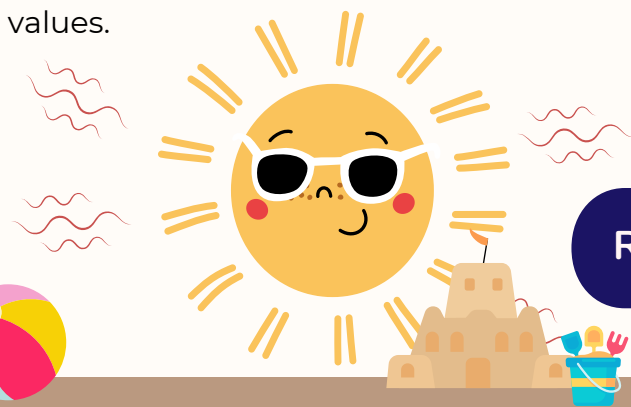

Formulating "natural" sunscreen means that you need to rely only on naturally sourced inorganic sunscreens such as zinc oxide and titanium dioxide. These are widely used and effective ingredients, however formulators face many challenges such as an unwanted aesthetics, compatibility with other ingredients, ect. Increasing knowledge of how to formulate with mineral sunscreen ingredients is key to meet current demands seen in the industry. Presented will be trends in natural sunscreen formulation and tips on how to build a natural sunscreen formulation with acceptable SPF values.

MASCC Member Spotlight

ERICA TYREE

Account Manager, SCT

[@Erica Rattigan Tyree](#)

BS, Physics | University of Pittsburgh
MS, Cosmetic Science | University of Cincinnati

"I first joined the chemical industry in 2010 and have been here ever since! I started out as a custom coatings formulation chemist for new OEM products, technical service, and factory process improvement. Specializing in 2K aliphatic urethanes formulation and custom color matching for agricultural equipment and railroad at paint manufacturer Davis-Frost, Inc.

In 2016 I moved into cosmetic and OTC product development for Fleet Laboratories and served as group leader, specializing in product innovation for feminine hygiene and lice treatments and repellants. We launched over 30 consumer products for brands: Summer's Eve, Monistat, Fleet, and Nix. It was there I was introduced to the SCC in 2017.

My role as Account Manager with SCT spans beyond sales to new product NPD, project management, and marketing. It's an awesome mix for me, as my technical background helps to engage with formulators and deliver on solutions to meet/exceed their innovation goals, working constructively with buyers, and my internal team to grow the business.

MASCC Member Spotlight

ERICA TYREE

Account Manager, SCT

[@Erica Rattigan Tyree](#)

BS, Physics | University of Pittsburgh
MS, Cosmetic Science | University of Cincinnati

Being a member of the SCC has connected me with some of the brightest minds and the coolest who's who in the industry. My favorite part of being a member is seeking and creating new innovation solutions for real market needs and making new friends at networking events.

My way of giving back to the SCC is volunteering for the Mid-Atlantic Chapter. This is my first year, and it has presented new opportunities for me, such as event moderation and understanding more about how the organization works to bring meaningful events to members like us! I highly recommend both novice and veteran members to get involved and voice your opinion about what your chapter can do for you. Work-life balance includes board games with my son, running with my puppy, paddle-boarding, fishing, kick-boxing, and playing the trombone and bass guitar.

I can't do any of this without the support of my family, who have hailed me as a professional soup maker. I encourage you to get creative in the kitchen and keep your passions for food alive by trying new things, like my clam chowder recipe I've included (on next page!). Reach out to me on LinkedIn if you have recipes or self-care tips. I'm all about it!"

Erica's Clam Chowder Recipe!

1 sweet onion finely chopped
1lb cooked bacon, save some grease
½ tsp thyme
2-3 russet potatoes, peeled and chopped
6 cans of minced clams and their juices
2 cups of chicken broth
3 cups heavy cream
1 ½ tsp xanthan gum, premix with olive oil
6 tbsp Sherry

Garnish: crispy bacon, Worcestershire sauce, Tabasco sauce, oyster cracker, old bay, pepper, and whatever else

Make bacon and set aside. In a Dutch oven, sauté onions in some bacon grease, until translucent and soft. Add the thyme and cook until fragrant.

Drain the clams from their juices and separate. Reserve the clams for later. Add the clam juice to the pot and then the potatoes. Cover potatoes with chicken broth just enough to cover. Keep the water level low, as you'll make up volume with heavy cream, later. Bring to a boil and cook until potatoes are soft and can be pierced easily with a fork. Now add the heavy cream and bring to a gentle boil. Add the oil/xanthan gum premix and gently stir until thickened. Add clams and sherry. Spoon into bowls. Garnish and serve.

NextGen

ABOUT THE NEXTGEN INITIATIVE

The NextGen initiative was launched in 2015 by the Society of Cosmetic Chemists to address the needs of early careerists, young professionals and undergraduate/post-graduate students in the cosmetics and personal care industry. The initiative consists of special education, networking and other events specifically designed to assist the “next generation” of formulators, innovators, and ground-breakers in the industry.

SOCIETY OF COSMETIC CHEMISTS

NEXTGEN

We're now on social media!

-  @SocietyofCosmeticChemistsNextGen
-  @SCCNextGen
-  @NextGenSCC

RECEIVE YOUR FIRST CALENDAR YEAR OF MEMBERSHIP FOR FREE

HIGHLIGHTS OF NEXTGEN

- **Relationships** with more than 20 higher education institutions worldwide that focus on cosmetic chemistry and related degrees.
- A full track of sessions at the Annual Scientific Meeting **dedicated to NextGen-focused topics.**
- **Continuing education courses held throughout the year**, designed to address what early careerists and those new to the industry need to know now.
- Significantly **discounted student and junior member access fees** to local and national events.
- **Career development programs**, including opportunities to personally connect with potential employers in all facets of the industry – from finished goods houses to material suppliers and contract manufacturers to regulatory agencies.
- National and local chapter opportunities for students to **present their research and scientific posters** to industry leaders, some of whom are afforded scholarships or prizes.
- Opportunities to meet industry and subject matter experts in every aspect of the cosmetics and personal care industry, including academia, government, testing/claims professionals, formulators, consultants, legal and insurance specialists, and more.
