

# Solutions and Incentives for Higher Education

Colleges and universities spend nearly \$14 billion on energy each year.\* PECO energy efficiency solutions and incentives can help you lower energy costs so you can devote more resources to students and staff.

## Reduce Overhead and Operating Costs

From residence halls and cafeterias to sports facilities and classrooms, colleges and universities are teeming with energy-saving opportunities. With high-efficiency improvements, you can reduce energy costs across campus by 30% or more. PECO offers incentives to make your energy-saving upgrade projects affordable.

In addition to cutting operating and maintenance costs, improving energy efficiency lowers greenhouse gas emissions, enhances indoor air quality and improves the learning environment for your students and staff.

## Incentives for Energy-Saving Measures

Whether you're looking to reduce operating costs, constructing a new building or planning a major renovation, we offer incentives for dozens of proven energy efficiency measures to make upgrade projects cost effective and hassle-free.

At PECO, we have the technical expertise and financial incentives to help your campus save energy and money.

See the chart on the back for typical energy efficiency solutions for colleges and universities.

# Typical Energy Efficiency Solutions for Large Commercial and Industrial Facilities

Lighting	Controls
LED High-Bay Fixtures	Interior Central Lighting Controls
LED Troffers or Tube Replacement Lamps	Demand-Controlled Ventilation
LED Outdoor Flood or Canopy Fixtures	New Energy Management System
LED Parking Lot Fixtures	Retrocommissioning, Cooling Systems
LED Wall-Mount Fixtures and Retrofit Kits	Retrocommissioning, Whole Building

ENERGY STAR® Food Service Equipment	
Commercial Refrigerator	Commercial Freezer
Commercial Convection Oven	Commercial Fryers
Commercial Hot Holding Cabinet	Commercial Steam Cookers
Beverage Machine	

HVAC	Data Centers
Air-Cooled Chiller	ENERGY STAR Server
Chilled Water, Hot Water or HVAC VSD	

## Why Improve Energy Efficiency on Campus?

Nearly 30% of the energy consumed by buildings is used inefficiently or unnecessarily.\*\* By improving campus energy efficiency or integrating energy efficiency into plans for renovations or new construction, you can save on operating costs and create a more comfortable, safer environment for students and staff. You'll also show your environmental stewardship by reducing energy use and greenhouse gas emissions.

## Savings for All

PECO offers solutions and incentives for businesses and organizations large and small. Our solutions cross every sector from commercial and industrial to nonprofits and government to retail and real estate.

In addition to standard incentives for energy-efficient heating and cooling systems, refrigeration equipment, lighting, variable frequency drives and custom measures, we offer incentives for whole building systems and new construction.

## Four Easy Steps to Get Started

Contact the PECO team, and we'll help you:

1. Evaluate your energy efficiency opportunities.
2. Choose qualifying equipment and measures.
3. Apply for your incentives.
4. Enjoy all the benefits of energy efficiency.

**New Construction – Whole Building Systems†**  
Comprehensive, building-wide measures including automation and remote systems that improve the facility's overall efficiency.

- 11%–20% Improvement Over Code
- 21%–30% Improvement Over Code
- 31%–40% Improvement Over Code
- 41%–60% Improvement Over Code
- > 60% Improvement Over Code

**New Construction – Interior Lighting††**  
Construction of a new facility from the ground up or a major renovation with a change of building use.

- ≥ 10% and < 20% of Code
- ≥ 20% and < 30% of Code
- ≥ 30% and < 40% of Code
- ≥ 40% of Code
