INTRODUCTION

VISION

At Warm Heart Helpers, our vision is simple yet powerful: to ensure that every child and family in Sri Lanka has access to the basic necessities they need to thrive in a nation affected by the lasting impacts of war, poverty, and corruption.

MISSION

Our mission at Warm Heart Helpers is to provide essential resources and support to underprivileged communities in Sri Lanka. We focus on delivering critical items such as food, water filters, school supplies, and medical aids to those in need.

Vihara*

PROJECT HIGHLIGHTS

PROJECT HIGHLIGHTS

SUPPLIES TO LUNUGAMVEHERA

Here in a rural village in the city of Lunugamvehera, Southern Province of Sri Lanka, there are many underprivileged families in need of various essentials.

02

We delivered supplies to many families within the village, including backpacks, water bottles, lunchboxes and a crate of food supplies.

03

We also donated textbooks and other educational materials to the local school, which was in desperate need of resources.

PROJECT HIGHLIGHTS

SCHOOL SUPPLIES IN DIKWELLA

Mahasenpura Primary School, located in southern Sri Lanka, is a school where the water filter had broken down from any years of use.

02

We covered the drilling of the wells required to check whether the sites even contained water in the first place.

03

This effort not only brought clean drinking water to the approximately 50 families but also gave them two closer sources for water.

PROJECT HIGHLIGHTS

WATER WELL DRILLING

Here in Mathugama, Sri Lanka, we were able to fund the drilling of two deep water wells for a small village of about 50 families.

02

We covered the drilling of the wells (approx. 5 USD per foot) and the installation of PVC piping (around 66.67 USD).

03

See our site for the full video.
