## SpaceCore - Recycled Acoustic Core

Soundspace SpaceCore is a high performance acoustic panel designed for a range of interior applications. Available in 25mm, 50mm and 75mm thicknesses,

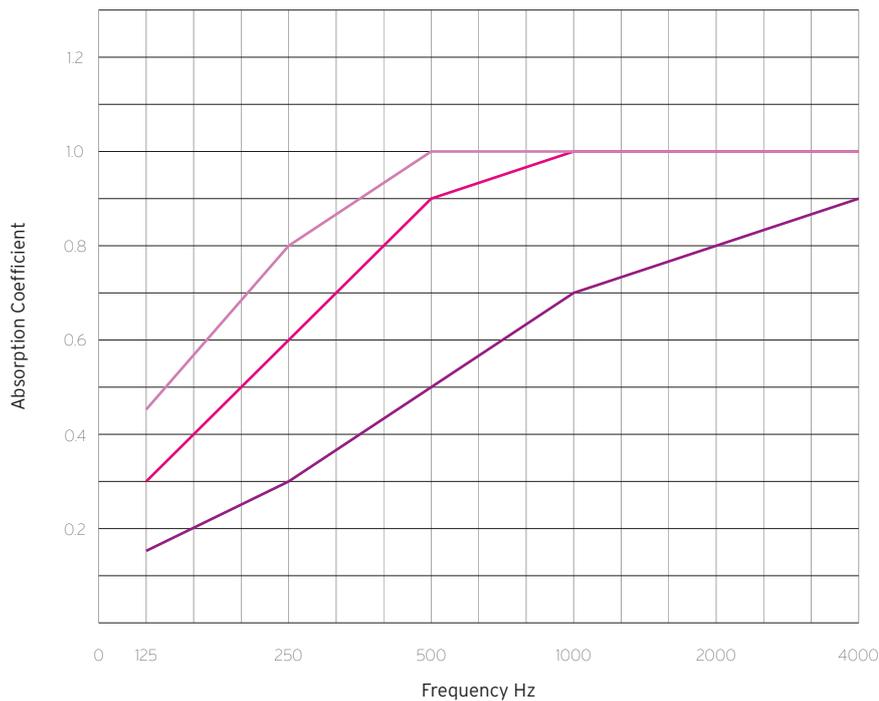

SpaceCore Acoustic panels are lightweight and made from 100% polyester fibre.

Fire Classification : B s2 d0

Frequency (Hz)	125	250	500	1000	2000	4000	NRC
Space Core 25mm	0.15	0.30	0.50	0.70	0.80	0.90	0.55
Space Core 50mm	0.30	0.60	0.90	1.00	1.00	1.00	0.90
Space Core 75mm	0.45	0.80	1.00	1.00	1.00	1.00	1.00

Absorption Coefficient in accordance with ISO 354  
Tested at SRL Technical Services UK

Space Core 25mm  
Space Core 50mm  
Space Core 75mm

# soundspace:

We are Soundspace and we're inspired to enhance beautiful spaces in a sustainable way.

We do this using recycled, reusable resources that help the environment.

We work intelligently with clients to create and deliver design led solutions.

Acoustics and aesthetics, function with form.

We understand the built environment is a place for productivity...  
... contemplation, inspiration and collaboration.

We love working with brands and people everywhere  
to create more sustainability conscious spaces.
