Veteran-owned and family-operated, based in Colorado.

ASTM F2170 · COLORADO

ICRI-Certified Concrete Moisture Testing

ASTM F2170 In-Situ Relative Humidity

Calcium Chloride (ASTM F1869) Moisture Vapor Emission Testing also available. Call for pricing.

Testing is performed by **ICRI-certified moisture testers**. Colorado-based and serving flooring installers and general contractors across Colorado.

WHAT'S INCLUDED

- **Probe placement per ASTM F2170:** 3 tests for the first 1,000 SF, plus 1 test for each additional 1,000 SF.
- **Two-visit process:** probes are installed on the first visit, then read on a return visit after the required equilibration period.
- **Written report** with test results.
- **Prompt reporting** once readings are complete.
- **Included testing:** in-situ relative humidity (ASTM F2170), concrete pH (ASTM F710), and slab porosity (ASTM F3191).
