

Senior SQL Server DBA (On-prem/Azure/AWS)

Professional Summary:

Highly accomplished **on-premises SQL Server environments, Azure PaaS, Azure IaaS, and AWS RDS with 14+ years of experience** delivering stable, secure, and high-performance database platforms across enterprise environments. Proven expertise in **SQL Server 2008/2008R2/2012/2014 /2019/2022**, encompassing database architecture, design, replication, high availability (HA/DR), migrations, performance optimization, and disaster recovery planning. Demonstrated ability to manage complex, mission-critical systems in **highly secure, multi-tenant, and fast-paced environments**, while collaborating effectively with cross-functional teams to ensure operational excellence and business continuity. Proven ability to support 24x7 systems, lead migrations, and partner with application and cloud teams.

SKILLS & Competencies:

• Requirement Gathering & Analysis • Database Project Management & Execution • Cross-functional Coordination • Management Reporting • Databases Integration & Migration (on premises to cloud) • SQL Server Administration • Azure SQL Database • SQL Managed Instance • SQL Server High Availability Solutions • Disaster Recovery • Cost & Licensing Optimization • Security & Compliance • Encryption (TDE) • Database Performance Tuning • Database upgrading • SQL Server Reporting Services (Installation/configuration & migration) • Database analysis • Database automation • Capacity Planning • Monitoring & Maintenance • Custom Monitoring Scripts • RTO / RPO Management • Backup and recovery • SLA Management (99%+ Uptime) • SQL Agent Job Scheduling.

Technical Tools:

- **Database Tools:** SQL Server Management Studio (SSMS), Data Migration Assistant (DMA), SQL Server Profiler.
- **Monitoring Tools:** Redgate, SolarWinds (DPA), MS SQL Profiler.
- **Cloud Platforms:** Azure MI, Azure DB, AWS EC2, AWS RDS, S3 bucket, Azure blob.
- **Backup Tools:** Rubrik, Idera, SQL server agent for native backup.

Certifications:

- **MCP:** Microsoft Certified Professional
- **MCSA:** SQL Server 2012/2014
- **DP-300:** Microsoft Certified Azure Database Administrator Associate
- **ITIL:** ITIL 4 Foundation Certified
- **AI-900:** Microsoft Azure AI Fundamentals
