The song seems like it could be good play at a party or in a club. However, I feel for radio or actively listening to it the beats of the song are a tad bit too repetitive for the first two minutes of the song. It takes too long for it to break out into something different. In a way it almost feels like two different electronic song combined together.

This song seems like it's meant for a club or a rave of some sort. In that case I think it does it's job. Nothing too special about the song but if I'm just looking to dance to that type of music then it's fine. In any other setting I wouldn't really care to listen to the song.

I love the sound (sample?), for lack of a better word, that is at the beginning. I like the way that it sort of revolves in its effect. It's sort of addictive and very cool. It's great the way that the song builds on that. This is unique, which is a big plus.

I enjoyed this song, this song has an upbeat and uptempo melody. The beat is simple but adds to the complexity of this song. The electronic melody has a nice sound and harmonizes with the other elements in this song.

This song is fantastic. Between the name and some of the beats, it definitely hearkens back to the 80's. I would definitely listen to this for its hype factor while doing just about anything.

Song definitely has a very strong electric sound to it. The title kind of makes no sense, because the song doesn't even sound like something from the 80s. Would have been better if it did.

The song hits you hard from the start (in a good way). I like the beat and the music. The song is one you can move around a bit too. I like it and I'd check out more from the artist too.

I think that the drilling sound of the synth sounds interesting, and the beat also sounds interesting, though it seems to have a spot in the beginning where the hi hat could use work.

The synth buzzsaw like sounds that they play are are really distracting and take away from the nature of the track here. It sounds kind of aggressive.

- 8** 53  I like the overall sound and beat of this song. I like the instrumental play. I do like electronic music because of the hypnotic beats and sounds.

- 7** 35  Well done music. It is easy to remember. This music makes me listen it. However, I don't see much value in this music. It's very average for me.

- 9** 35  Love the modernized 80s beats. This song makes me want to get up and do the robot and then bust into dance. There's a lot of energy throughout.

- 7** 29  I think that it is a pretty enjoyable song to listen to. There is nothing really great about it, but there is also nothing in the song either.

- 7** 32  This is a pretty decent song overall. The instrumental is decent and sets the mood and tone. The vocals and lyrics are about average. 7. 5/10.

- 7** 28  The track is titled, "Back to the 80's" but this definitely sounded more 90's/2000's- it even has a Matrix vibe to it. Still fun song though.

- 1** 42  How long does it take to get a headache.. I'll tell you.. Exactly 15 seconds of listening to this silly beat on a loop. Two thumbs down.
age female
- 1** 42  The first 2 second of this song and it was already on my nerves. This is not anything that I would be interested in listening to at all.

- 9 47  This is a great sounding electronic ditty with a soothing beat and action packed rhythms. It is vibrant and energetic music to party to.

- 8 33  Cool sound but rather pitchy at moments I think it could be a hit or nice live in concert with minor improvements to the quality.

- 10 28  I love how the sounds of the beat has a fast rhythmic movement. The drum has a clear and perfectly mixed sound and clarity to it.

- 5 63  This song just goes nowhere. The instrumentals are good but there is no middle and end. I don't care for this tune.
