I don't hear enough cohesion weaving this together. Maybe this is meant for those who want to tune in for ten minutes. So far, it's just experimentation with sound effects. Not a song.

A very intensely yet still meaningful song that just resonates with electronica listeners. Because while you listen to it you hear the way the artist crafted it so well.

Good track although it could use more music varieties and not concentrate so much on certain beats, but still sounds pretty good and complete.

I loved some parts of the beat that sounded like jungle house but other parts sounded more like mortal kombat and less appealing to me.

I don't like the choice of the vocals for repeating, it's too echo-y and repeats too quickly. It makes me feel like I'm going insane.

Dope electronic music is really hard to come by these days for me, but this was at least a good step toward that. Nice deep bass.
