January 30, 2026

Dear Inch-holder,

We are hopeful that snowpack will rebound and we have plenty of water for the 2026 water season. The current assessment will remain the same as 2025 at \$185 per inch as approved by Resolution No. 10-2017 on November 13, 2017.

As a reminder, we are asking for each inch-holder to continue the practices below.

1. Water **will not** be delivered without a formal request from the inch-holder for their water. Please make sure to call or e-mail to request your water deliveries. If we do not get a call, e-mail, or letter making the request to deliver water, we will not open your headgate or adjust headgates to full delivery. To request your water please call: 303-423-6010 or e-mail nmccoy@churchditch.org.
2. Authority staff sets flow rates based on demand and water available to the ditch from Clear Creek. There has been a steady increase of users damaging set collars or forcing gates past the setting of the set collars for water. Please remember that this is considered water theft and failure to adhere to set flows will result in termination of water deliveries until a resolution is met.

Finally, please join us for the annual inch-holder meeting on March 16, 2026 at 6:00 PM, at the Apex Recreation Facility in the Randall Room. The address for this location is 13150 W. 72nd Ave., Arvada, CO. This year's presentation will include review of water delivery practices, a general overview of the 2025 water year, company activities, and CIP work. There will also be a light meal provided.

Should you have questions or concerns about your assessment or any other ditch activities, please feel free to contact me at 303-423-6010 or by e-mail at nmccoy@churchditch.org.

Sincerely,

Nathan McCoy
General Manager
Church Ditch Water Authority
