

BENTONITE CAT LITTER

**% 100
NATURAL**

FROM NATURAL UNDERGROUND RESOURCES TO OUR CAT FRIENDS.

Bentonite cat litters are in the group of clumping cat litters with high liquid absorption capacity and good odors control. Bentonite cat litters are produced from natural calcium or sodium bentonites.

With our 20 years experience in the mining industry and cat litter production, we know the best bentonite sources. In this way we offer cat litter products made from the highest quality natural bentonite.

In our product range we have products with different sizes, perfumes and coloured granules. Products in different sizes, perfumes and coloured granules can be offered according to the needs of our customers.
