

POINT OF SALE | 2026

PAYCO

The logo for PAYCO features the word "PAYCO" in a bold, black, sans-serif font. The letter "O" is replaced by a circular icon consisting of three blue arrows forming a clockwise loop. The background of the slide features a large, light blue circular arrow pointing clockwise, and a larger, grey circular arrow pointing clockwise, both partially visible behind the text.

The Right POS for Your Business

Four leading platforms. One partner who stands behind every one of them.

Card Processing & ACH | Point of Sale | Kiosks | IT Support | Integrations

THE PROBLEM

Choosing a POS Is a High-Stakes Decision

Most merchants don't get a second chance to get it right — the wrong system costs time, money, and customers.

Your point of sale runs the whole operation — orders, payments, inventory, staff, and the guest experience. Yet most businesses are sold a single box and left to figure out the rest. Here's where it goes wrong:

Locked Into One System

One vendor, one product — so the system gets bent to fit the box instead of your business.

Support That Disappears

Plenty of attention during the sale, then a 1-800 queue once the hardware ships.

Tech That Doesn't Fit

A retail box jammed into a restaurant — or vice versa — with workflows that fight your team.

Hardware That Can't Grow

No clear path to handhelds, kiosks, or new locations when business takes off.

The fix isn't a better box. It's a better partner. [That's where Payco comes in.](#)

OUR DIFFERENCE

Why Payco Is Different

We don't sell you a system and walk away. We help you pick the right one – and stand beside it for the long haul.

We Fit the POS to You

Vendor-agnostic by design. We carry four leading platforms and recommend the one your business actually needs – not the only thing we sell.

In-Person, Not Just Online

Local technicians handle install, configuration, menu build, and hands-on staff training – on-site, not over a help article.

24/7 Live Support

Real people, any hour. When something breaks at the Friday dinner rush, you reach a human who knows your setup.

Deep Industry Expertise

Years in restaurants, retail, medical, and B2B. We consult on workflow and operations, not just hardware.

Specializing in restaurants, retail, medical, e-commerce, wholesale & B2B – we speak your industry.

PRODUCT OVERVIEW

The Payco POS Lineup

Four proven platforms, each strongest for a different kind of business. We help you match the system to the operation.

SpotOn

Restaurant-grade POS built with operators — fast handhelds, KDS, and advanced offline mode.

Best for: full-service & quick-service restaurants

Clover

Flexible all-in-one POS with a huge app marketplace — works across retail, dining, and services.

Best for: retail, cafes & mixed-use businesses

OrderCounter

Hybrid POS — local-server reliability with cloud access. Runs your restaurant from anywhere.

Best for: restaurants that can't afford downtime

Genius

Global Payments' modular platform spanning retail, restaurant & enterprise — POS to drive-thru.

Best for: growing & multi-location operators

PRODUCT · SPOTON

SpotOn POS

Restaurant-grade point of sale, built hand-in-hand with operators.

SpotOn is purpose-built for hospitality. Its hardware and software were designed with input from the SpotOn Restaurant Advisory Council, so the workflows match how restaurants actually run – from fine dining to the drive-thru. Everything lives on one unified, cloud-connected platform.

- ✓ Tableside handhelds turn tables faster & lift upsells
- ✓ Advanced offline mode keeps you selling if internet drops
- ✓ Built-in dual pricing / surcharge, compliant at checkout
- ✓ Real-time reporting on sales, labor & product mix

AT A GLANCE

6.5"

Handheld with EMV, tap & contactless built in

3

Hardware form factors – Station, Counter, Handheld

24/7

Live support included with every deployment

1

Unified platform – POS, KDS, online ordering & loyalty

SpotOn — Hardware & Capabilities

One platform, the right device for every station in the house.

15.6" Station

The anchor terminal for the host stand or service line — large, fast, and durable.

10" Counter

Compact countertop POS for tighter spaces, retail counters, and secondary stations.

6.5" Handheld

IP54 spill/dust-resistant, Android 14, leather strap — order & pay right at the table.

Kitchen Display

KDS screens stay in sync with stations and handhelds to speed up the line.

Online Ordering

First-party online ordering and delivery flow into the same system and reports.

Loyalty & Marketing

Built-in loyalty, reviews, and campaigns to bring guests back more often.

Best for full-service & quick-service restaurants that live and die by speed of service.

PRODUCT · CLOVER

Clover POS

The flexible all-in-one system with an app for almost everything.

Clover (by Fiserv) is one of the most widely deployed POS platforms in the country. Its strength is flexibility — a clean all-in-one device family plus a deep app marketplace that lets you bolt on exactly the capabilities your business needs, whether you run a boutique, a cafe, or a service counter.

- ✓ All-in-one devices — screen, printer & payments in one
- ✓ App marketplace extends the POS to your workflow
- ✓ Accepts swipe, dip, tap & mobile wallets out of the box
- ✓ Real-time analytics on sales trends & best sellers

AT A GLANCE

4

Core devices — Station Duo, Mini, Flex & more

14"+8"

Dual-screen Station Duo for staff + customer

100s

Apps in the Clover marketplace

All

Major payment types accepted on every device

Clover — Hardware Lineup

Pick the footprint that fits your counter — they all run the same Clover platform.

Station Duo

14" merchant screen + 8" customer-facing screen for fast, transparent checkout.

Clover Mini

Compact 8" touchscreen with built-in printer — full POS power on a tight counter.

Clover Flex

Handheld with built-in thermal printer — take orders & payments anywhere, line-bust with ease.

App Marketplace

Add inventory, scheduling, loyalty, online ordering & more without switching systems.

Built-in Analytics

Filter reports by busy times and best sellers; track monthly sales trends.

Customizable

Tailor layout, home-screen apps, receipts, tipping prompts & staff permissions.

Best for retail, cafes, and mixed-use businesses that want flexibility and room to add apps.

OrderCounter POS

Hybrid by design – local reliability with cloud freedom.

OrderCounter is a hybrid restaurant POS: it runs on an in-house server for rock-solid reliability, while a cloud layer lets you view data and run the restaurant from any device, anywhere. If your internet hiccups, the floor keeps moving – and you still get the remote access modern operators expect.

- ✓ Local server = no downtime when the internet drops
- ✓ Run reports & back-office from any device, anywhere
- ✓ Kitchen Display with menu coursing for kitchen tempo
- ✓ Real-time inventory updates as sales happen

AT A GLANCE

Hybrid

Local server reliability + cloud accessibility

KDS

Coursing-aware kitchen display for back of house

Live

Real-time inventory & remote back office

Any

Device, anywhere – full remote back-office access

OrderCounter — Features

Everything a busy kitchen and back office need, with reliability at the core.

Kitchen Display

Menu coursing lets chefs dictate tempo so dishes flow and are anticipated in advance.

Real-Time Inventory

Stock levels update automatically as sales happen, helping prevent stockouts.

Tableside Ordering

Send orders straight to the kitchen from a mobile POS tablet at the table.

Remote Back Office

Scheduling, labor cost monitoring, sales reports & inventory from anywhere.

Gift Cards

Design, process, and fulfill branded gift cards inside the platform.

Analytics Suite

Extensive reporting tools turn daily operations into actionable decisions.

Best for restaurants that simply cannot afford to go dark during service.

PRODUCT · GENIUS

Genius POS by Global Payments

One modular commerce platform that scales from a single shop to a national enterprise.

Genius brings ordering, payments, workflows, mobility, and insights together in one platform — built for restaurants, retail, and multi-location brands. Fast setup, 24/7 support, and EMV & PCI compliance come standard. Payco sells Genius in three editions, plus digital menu boards, so the platform grows with you.

Genius for Retail

Inventory, customers & promotions for shops and multi-location retail.

Genius for Restaurant

POS, KDS, drive-thru & online ordering for bars and restaurants.

Genius for Enterprise

High-volume, modular tech for QSR chains, venues & cafeterias.

POS · Kitchen Management · Back Office · Payments · Drive-Thru · Kiosk · Digital Signage — all in one platform.

Genius for Retail

Built for store owners who need to track stock, know customers, and take payment anywhere.

Smart Inventory

Forecast and automate inventory, respond to trends, and reduce dead stock.

Multi-Location Sync

Counts update after each transaction for a real-time view across every store & channel.

Customer Data

Analyze buying behavior and build customizable promotions for your shoppers.

Never Oversold

Real-time updates and stock alerts keep orders from being overlooked or oversold.

Counter + Handheld

Ring up sales at the counter or anywhere on the floor with mobile POS.

24/7 Support

Fast setup with around-the-clock support, EMV & PCI compliance built in.

Best for shops and multi-location retailers that run on tight inventory and repeat customers.

Genius for Restaurant

Front of house to back of house, drive-thru to delivery — on one connected system.

Modern KDS

Orders auto-route to the right screens, syncing back and front of house in real time.

Counter & Drive-Thru

Take orders at the counter, in the queue, in the drive-thru, or by kiosk with ease.

Online Ordering

Bring delivery and online orders into the same workflow and reporting.

Dual Pricing

Offset processing costs with compliant dual pricing / surcharge at checkout.

Real-Time Reporting

See sales, labor, and product mix as they happen to run a tighter operation.

Fast & Secure

Quick setup with 24/7 support, EMV & PCI compliance on every transaction.

Best for bars and restaurants that want one platform from the first tap to the last receipt.

Genius for Enterprise

Formerly Xenial, RTI & Sycom – unified, modular tech for high-volume operators.

Built for Scale

Modular commerce for large QSR chains, stadiums, concessions & corporate cafeterias.

Registers & KDS

Registers, kitchen displays, back-office reporting & loyalty in one system.

Self-Service Kiosks

Customizable kiosks with integrated loyalty & payment to cut waits and lift tickets.

AI Drive-Thru

Loop detectors, cameras & a vision system automate order initiation and sequencing.

Fully Integrated

Digital menu boards, payments & automations all connect inside one platform.

Proven at Scale

51,000+ restaurants worldwide run Global Payments' enterprise technology.

Best for high-volume and multi-unit brands that need enterprise-grade, end-to-end technology.

PRODUCT · GENIUS

Genius Digital Menu Boards

Swap printed signage for screens you control in real time – indoors and out.

Genius digital menu boards run on a next-generation signage platform. Update pricing, promotions, and menu content in real time with drag-and-drop software – then push changes across every location at once. Pricing stays in sync with your POS, so the board always matches the register.

- ✓ Real-time menu & pricing updates
- ✓ Drag-and-drop, no design team needed
- ✓ Indoor & outdoor (drive-thru) ready
- ✓ Roll out promos to all sites in one go

One platform, every screen

- ✓ **Pricing sync** — Boards mirror POS pricing automatically.
- ✓ **Multi-location** — Manage all sites from one dashboard.
- ✓ **Day-parting** — Menus change by time of day, hands-free.

KIOSKS

Self-Service Kiosks That Pay for Themselves

Let guests order at their own pace while your team focuses on the food and the floor.

Kiosks aren't just for the big chains anymore. They shorten lines, improve order accuracy, and reliably lift average ticket through consistent upsells. Payco pairs a kiosk with every POS we sell – so it speaks the same language as your system.

Shorter Lines

Guests order in parallel, so throughput climbs at peak.

Better Accuracy

Customers build their own order – fewer mistakes, fewer remakes.

Bigger Tickets

Automatic, consistent upsells and add-on prompts on every order.

Freed-Up Staff

Redeploy team members from the register to service and prep.

A kiosk for every platform: Reddie with SpotOn · Clover Kiosk · Genius Kiosk.

Reddie Kiosk — Paired with SpotOn

Self-order kiosks and digital menu boards built specifically for the SpotOn POS.

21.5" Self-Order

Three indoor models — freestanding (ADA-compliant), countertop, and wall-mount.

Indoor & Outdoor

Outdoor self-order kiosks and digital menu boards for drive-up and patio.

Native SpotOn Sync

Menu, pricing & inventory stay in lockstep with your SpotOn POS automatically.

Straight to the Kitchen

Orders flow instantly to your KDS or printer for fast, accurate fulfillment.

Fewer Errors

Guest-built orders reduce human error and keep daily operations under control.

Digital Menu Boards

Reddie also supplies indoor & outdoor menu boards made for SpotOn customers.

The kiosk to choose when your point of sale is SpotOn.

KIOSK · CLOVER

Clover Kiosk

An all-in-one self-ordering station from the makers of Clover (Fiserv).

24" HD Touchscreen

Large order screen plus an 8" customer payment screen and thermal receipt printer.

Auto-Ingests Your Menu

Pulls your existing Clover menu & pricing and reconciles data in real time.

Contactless Payments

Accepts cards and mobile wallets like Apple Pay & Google Pay securely.

Smart Upsell & Tipping

Prompts add-ons, combos & upgrades and enables tipping right from settings.

Syncs With Your POS

Kiosk orders flow to your POS, KDS & reporting dashboard like any other sale.

Flexible Connectivity

Runs over Wi-Fi, Ethernet, or optional 4G/LTE; dual cameras scan QR & loyalty.

The kiosk to choose when your point of sale is Clover.

Genius Kiosk

Self-service that's built into the Genius platform – not bolted on.

Part of the Platform

The kiosk is a native Genius capability, so it pairs directly with Genius POS.

Modern Guest Flow

A customizable, intuitive ordering interface that reduces waits and lifts tickets.

Loyalty & Payment

Integrated loyalty and payment options for a seamless self-order experience.

Menu Board Match

Works alongside Genius digital signage so kiosk and boards always agree.

Built for QSR & Enterprise

Scales with drive-thru and enterprise tooling for high-volume operators.

One Source of Truth

Kiosk orders reconcile into the same Genius reporting as every other channel.

The kiosk to choose when your point of sale is Genius.

Let's find the right POS for your business.

We'll learn how you operate, recommend the platform that fits, install and configure it on-site, and stand behind it 24/7.

Vendor-agnostic advice

In-person install & training
