

FIORE BEDROOM

The cabinet doors and drawer fronts are walnut wood panel and walnut solid coating and thus reflected to the customer in its most natural form. For ease of use and longevity of the product life, stoppers are used to prevent shocks during opening and closing of the wardrobe sliding doors, wardrobe hangers consist of daylight illumination with motion sensor and tandem rails with stop and stop are used in the drawers against sound and impacts.

In the product, non-carcinogenic materials are used that do not harm the environment and human health. In our model, high feet were preferred from the floor that facilitates cleaning. You can also buy the product in pieces if you wish.
