

## LETTO BEDROOM

Aluminum profile and bronze tempered glass are used on the cabinet doors, the front of the drawers are covered with walnut solid and the biggest feature (90 blocks) that distinguish this cabinet from others is the design, shelf number, number of drawers (max. 4 pcs.) is a flexible option.

With the advantage of the fact that the cabinet doors are made of bronze glass with the help of motion sensor, the interior of the cabinet has a stylish appearance with the lighting of the daylight colored lighting. In order to keep the product lifetime stable for longer, invo brake hinges are used to prevent impacts during opening and closing of cabinet doors.
