

LUCCA BEDROOM

Special matched walnut massive is used on the cabinet doors and in front of the drawers. For ease of use and to keep the product life longer, stoppers are used to prevent shocks during opening and closing of the wardrobe sliding doors, wardrobe hangers consist of daylight illumination with motion sensor, and tandem rails with stop and stop are used in the drawers against sound and bumps. Materials that do not harm the environment and human health and do not contain carcinogens have been used. You can also buy the product in pieces if you wish.
