

VENEDIK BEDROOM

Cabinet doors and drawer fronts are American walnut solid veneer, thus reflecting to the customer in the most elegant way. For ease of use and long life of the product, stoppers are used to prevent shocks during opening and closing of the wardrobe sliding doors, the cabinet hanger bars consist of daylight illumination with motion sensor. In the drawers, tandem rails with retarder and stop are used against sound and bumps.

In the product, non-carcinogenic materials are used that do not harm the environment and human health. In our model, high feet were preferred from the floor that facilitates cleaning. You can also buy the product in pieces if you wish.
