

i missed my chance.

1 I've TRIED so much i can't go on
 it's getting worse, i'm going home,
 i blew my chance i'd come and made,
 a mess of all my plans, i lost my nerve.
 i missed my chance. x4.

2 i get so scared as she comes my way
 to open up my mind, say what i mean to say
 i can't see why and what i've got to hide,
 unlike the fool i let her pass me by
 i missed my chance x4.

chains what is wrong with me,
 why must i act so crazy.
 only when she's around.
 But when i'm on my own
 i wish that she could be there,
 unlock these chains holding me down.
 Holding me down.

3 i don't know why i've lived a lie,
 in my world alone, no one even knows
 how come i feel so lost and small,
 why do i pretend i'm not at all.

chains i missed my chance x4

cut to the bone, felt in the pits
 left in the cold for that fool she's with.
 4 won't be so clever as the truth is known,
 stab you in the back, as he takes your soul.
 i missed my chance x4.
