**“STEEL IS NOT JUST
OUR MATERIAL-IT’S
OUR PROMISE OF
STRENGTH,
PRECISION AND
TRUST.”**

Elaf Gulf is a trusted name in steel fabrication, delivering precision-engineered solutions for industrial, commercial, and custom projects. With expertise, innovation, and commitment at our core, we fabricate structures that stand strong against time — building a future forged in steel.

OUR SUCCESS STORY

✓ Foundation of Expertise

Elaf Gulf was established with a clear vision: to bring unmatched quality and precision to the world of steel structure fabrication. From day one, our focus was on technical excellence, skilled craftsmanship, and delivering reliable solutions.

✓ Growth Through Trust

By partnering with leading industries and completing challenging projects, we earned the trust of our clients. Our dedication to meeting deadlines, maintaining quality, and offering innovative solutions fueled steady growth and expanded our reach across various sectors.

✓ Building the Future

Today, *Elaf Gulf* stands proud as a symbol of strength and innovation. With a dynamic team, cutting-edge facilities, and a commitment to continuous improvement, we continue to shape skylines and build lasting relationships — forging the future, one structure at a time.

OUR COMPANIES FEATURED

Elaf-Gulf with its inception in 2012, underlying focus is on the creation & incubation of growth business ventures

The combination of Elaf Gulf strong management team's expertise of several decades of successfully delivering industrial projects and group's synergy is the essence to reach par excellence in its performance; committed to serve the all-industrial sectors (Oil & Gas, Petrochemical, Fertilizer, Power & allied process industry) in Saudi Arabia.

Elaf Gulf is a progressive company and provides one windows solution i.e. Engineering, Procurement and Construction of Mechanical (Storage Tanks, Vessels & Pipe Spooling) & Electrical – also has very effective management & business processes tools, equipment & machinery for addressing all types of Electro-mechanical General Construction and Plant Maintenance, Turnarounds & Retrofit needs. Elaf Gulf has two well equipped production facilities which are located at Jeddah 3rd Industrial City & Hay Al Jawhara Jazan Road Jeddah, KSA.

Our Company Mission

❖ To be recognized as a reliable source for ensuring business success in delivering world class engineered products, services and turn-key solutions at the most competitive price with premium quality and reliability.

Our Company Vision

❖ To be recognized as a worldwide reference being an EPC company through its clients trust and reliability. A company focused on talent growth for its workforce to be at a level that they can serve not only within the country but all around the globe contribution in the world economy efficiency.
