Woodland  
Weddings

## Why us..

After finding our nook in the woods 6 years ago, we have spent many days nurturing our surroundings and bringing it back to life. We are excited to finally be able to share the beauty of our grounds and cabin as a wedding venue. What we can offer is a personalised & bespoke experience, spending time with each couple to provide a day like no other, all within the intimate setting of 4 acres of garden and woodland.
