It's the usual time the usual place
My favorite night with the usual faces
It's our regular dance and everybody's here with you
Saturday night's trance from the last best brew

It's the way it's always been
An evening with the friends of ZEN - Usual Scene
It's the best it's ever been
A happening with the friends of ZEN - Usual Scene

Feeling the mood unusually high
We're reeling pretty good as we groove on through the night
With our usual crowd it's a regular swaree
The band is playing loud it's our usual party

It's the way it's always been an evening with the friends of ZEN - usual scene
It's the best it's ever been at a happening with friends of ZEN - usual scene

We're the usual crew with plentiful prospects
The perfect thing to do with the usual suspects
As you travel around the world you know that you'll go far
Yet no matter where you go there you are

It's the way that it just is then an evening with friends of ZEN - usual scene
It's the way that it just is then a happening with friends of ZEN - usual scene
