

Julie Forestier is the Space Coordinator at Social Equity and Education (SEE) Alliance. Julie also ran for FL Sarasota County Charter Review Board District 1 in the General Election. Even though she did not win, she made a very impressive showing and will be the 2025 Women's Democratic Club of Sarasota president.

SEE Alliance is a student-founded, student-led, intergenerational organization using innovative technology and techniques to organize Floridian communities and the youth vote. The organization works in the long-term to build a sustainable movement that will liberate all Floridians, and working in the short-term to build communities of protection against increasingly repressive local and statewide policies.

Florida's government is actively and aggressively making it harder for marginalized and young people to vote. SEE Alliance is working with organizations across the state to do the opposite. The group sponsors and attends events each month of the year in the Sarasota/Bradenton area. In January SEE Alliance and their coalition partners will travel to Tallahassee for the legislative session on select dates, and on January 20 they will sponsor Martin Luther King Jr. Day of Action. There will be good food, good conversation, and the most fun text bank ever. SEE Alliance strategically reaches out to Floridians to encourage young voters to take action, and giving them encouragement so they can make a difference in our political system.
