

SKYE BODKIN

Licensed Esthetician

We're excited to introduce you to Skye and share a little more about the person who will be welcoming clients into her treatment room.

Skye is from Columbia City, Indiana, and has already put so much heart and determination into pursuing a career she loves.

She graduated high school early with the Class of 2026, then followed her passion for skincare to The Fort Wayne Salon Professional Academy, where she graduated from the Esthetician Program in 2026.

She is certified in dermaplaning, Bio-Therapeutic, and Slimsagé™ Detox treatments and looks forward to continuing to learn, grow, and bring new skills to her work at Monarch. What Skye loves most about esthetics is the chance to connect with people. She wants every client to feel comfortable asking questions, understood in their skincare goals, and confident when they leave her room.

That care for others reaches beyond skincare. Skye spent two years as a member of Big Brothers Big Sisters, an experience that reflects how much she values building meaningful connections and showing up for people.

Outside of Monarch, Skye loves thrifting and shopping with friends, practicing nails, working out, and taking walks in nature. And if there's a fun drink or sweet treat nearby, she's probably going to try it!

Skye brings a warm, welcoming energy to our team, and we're so happy to have her at Monarch. Please help us give her a big welcome!! We can't wait for you to get to know her! 💕
