

SARAH ANDERSON

Licensed Esthetician

Born and raised in Warsaw, Sarah brings more than two decades of experience in the beauty and aesthetics industry to Monarch Medical Esthetics. Her love for the industry began while working at Expressions Salon & Day Spa, where she fell in love with the atmosphere, the relationships, and the way a simple

appointment could help someone feel refreshed, beautiful, and more confident. Sarah completed her Master of Cosmetology training in 2003 and has continued expanding her knowledge and skills ever since. She is trained in customized facials, waxing, DiamondGlow, Slimsagé™ treatments, dermaplaning, Aerolase treatments, and more. She is also a certified lash technician and certified in fibroblast treatments. One of Sarah's favorite things about aesthetics is helping clients slow down, relax, and take a little time for themselves while also working toward healthier, glowing skin. She especially loves helping clients struggling with acne and creating personalized treatment plans that help them feel more confident in their skin.

Sarah believes skincare should be personal, intentional, and consistent. Her goal is for every client to feel comfortable, cared for, and completely at ease — and to leave their appointment feeling relaxed, refreshed, and confident. Outside of Monarch, Sarah loves spending time with her family, sewing, crocheting, cooking, crafting, and finding her next creative project. She's always up for a good cup of coffee, Mexican food, or a Target run! And a fun fact you might not guess — Sarah spent 15 years riding hunter/jumper horses.
