CENSUS 2020

Thank you

I always want to begin my newsletters with gratitude. We are experiencing unprecedented times and we have come together as a community. Each day has brought new challenges and obstacles, but the people of the 49th District have hung in there together to do what needs to be done.

I know I am not alone expressing my thanks to those hard at work in essential roles and I will do my part to make sure that we take care of you in return.

Today's newsletter will focus on the Census. Please continue to care for one another, offer kindness whenever possible and know that my virtual office is open and available to you for any needs you might have at this time at 1 (630) 326-9319.

Don't delay - do your Census today.

With so much time on our hands, why not take a moment to complete the 2020 census? It's easy, it's safe, it's confidential, and we have so much to gain.

Not sure why it matters? How about having governmental representation more reflective of you and your community? Or, what about the importance of knowing how many of us are in our community to receive an accurate amount of federal funding to support and rebuild after the devastating effects of coronavirus? What about funding for our children through schools, the appropriate funding for our roads and other public services that we've had to rely so heavily upon during the COVID-19 crisis?

It only takes a few minutes of your time and offers our communities so much in exchange. Do it now because you count. If you don't take the time now, you'll be visited by an enumerator this summer. So, why not take advantage of the time on your hands. You have two immediate options. Online or by mail. [Here's what you can expect.](#)
