

## BE ON TREND

Experiential activities are designed to create a transformational experience. The latest research on trauma, addiction, and the pursuit of wellness is pointing towards brain-based experiential techniques. As a CES you will be on the cutting edge of these interventions.

## MVP CONSULTING

2621 Sandy Plains Rd.

# CREATE AN EXPERIENCE

**CERTIFIED EXPERIENTIAL  
SPECIALIST**

**(CES)**

## AS A CES YOU WILL ...

- \* Understand sociometry and conduct sociometric testing.
- \* Conduct individual, group, couples, and family experiential interventions.
- \* Facilitate activities from a wide range of techniques to include art, music, psychodrama, adventure, and team-building interventions.
- \* Understand group dynamics and sequencing to facilitate activities that are appropriate for the desired experience.
- \* Understand the latest brain based research and facilitate transformation.
- \* Provide experiential psycho-education designed to teach and captivate participants.
- \* Learn to use limbic language that appeals to the senses creating more meaningful and memorable experiences.
- \* Provide a service that is unique, interesting, fun, and transformational.

## FACULTY

Marc Pimsler and Diane Sherman have over a decade of training in experiential activities. We bring to our students the passion and creativity that allows for true transformation. We believe, the best way to teach is to show. We will learn together by going through the process together. Grounded in the belief that we can only take a client as far as we ourselves have gone, we believe that professional development is directly connected to personal development.

### **Marc Pimsler, MA, MAC, CCS, NCC, CYT, RRT-P**

Marc is advanced trained in experiential activities, trauma, addiction, leadership, team building, and psychodrama. Marc brings his humor, spirituality, and presence into creating this experience.

### **Diane Sherman, Ph.D. MAC, CCS**

Diane has long committed to provide education that students will find memorable and meaningful. Most importantly she strives to mentor students into competent practitioners.
