A/C ROOM TEMPERATURE ADJUSTMENTS

A/C activated once warm weather begins...
 Our A/C system operates on a central thermostat. To HOT? OPEN your Transom, above your door, to increase air flow and cool off your room.
 Too COLD? Shut Transom above your door - If still too cold, turn on room heat using the thermostat on your wall - see HEATING SYSTEM details.
 Fans also under each sink or in a drawer.

Keys returned to avoid \$50 charge per key

No Smoking, No Pets, No Bikes in Hotel

All rooms have personal Hot Water Tank

Ignore Siren - Fire Dept calling Emergency Personnel

Entrance Doors UNLOCKED till Front Desk Closes

HEATING SYSTEM

Each room has its own electronic baseboard heating system.
 Turn your thermostat to the desired temperature. You will see {{{ lines appear on readout to indicate heat is ON.
NOTE: The temperature will DEFAULT back to current temperature in room, so please be patient, it will heat up quickly and temperature reading will change as the room becomes warmer.
