# Government Clients

# Product Overview

# Our Core Product Showcase

## FR Clothing

Flame Retardant Clothing are specifically designed to protect the wearer from flames, heat and thermal injury.

## Hi-Vis Clothing

High Visibility Clothing are specifically designed to protect while working specially in low light and dark conditions

A photograph of firefighters in orange protective suits and helmets working in a large industrial fire. The scene is filled with bright orange and yellow flames and thick smoke. The firefighters are positioned on a metal structure, possibly a staircase or walkway, and are using equipment to manage the fire. The overall atmosphere is one of intense emergency response.

A photograph of two workers in high-visibility safety gear. A woman on the left is wearing a red jacket, an orange high-visibility vest, safety glasses, and gloves, and is holding a tablet. A man on the right is wearing a black beanie, safety glasses, a black jacket, an orange high-visibility vest, and blue jeans. They are both crouching on a railway track, looking at the ground. The background shows gravel and the rails of the track. There are decorative circular patterns in the top left and top right corners of the image.
