**Buffalo Ridge Inert Landfill, LLC provides disposal services for inert materials\* only.**

**MATERIALS WHICH ARE NOT ACCEPTABLE FOR DISPOSAL AT BUFFALO RIDGE INERT LANDFILL LLC ARE:** Solid waste\*\*, Hazardous waste, and hazardous materials, household garbage, municipal solid waste, special waste, liquid waste, asbestos in any form and petro material.

**MATERIALS WHICH ARE ACCEPTABLE FOR DISPOSAL AT BUFFALO RIDGE INERT LANDFILL LLC ARE AS DESCRIBED BELOW.**

**Clean dirt: Uncontaminated soils that do not contain any rocks larger than 3” minus and contains no more than 30% rock.**

**Mixed: Any combination of dirt, asphalt, rock, tile or concrete smaller than 18” minus. Maximum rock size of 24” minus. Concrete with rebar call ahead – we cannot always accept it.**

**Recycle Asphalt: No petro-mat, less than 5% dirt and contains no other materials.**

**Bottom Dumps: We require a minimum of 24 hour notice prior to accepting any bottom dump loads, we cannot always accept them.**

**\*\*Any dump loads found to contain contaminates will be cleaned up and charged directly to customer on a time & material clean-up cost basis determined by Buffalo Ridge Inert Landfill LLC - \$500.00 minimum fee.**

**\*A.R.S. 49-701(15)**

15. “Inert Material”:

(a) Means material that satisfies all of the following conditions:

(i) Is not flammable

(ii) Will not decompose

(iii) Will not leach substances in concentrations that exceed applicable aquifer water quality standards prescribed by section 49-201, paragraph 20 when subjected to a water leach test that is designed to approximate natural infiltrating waters.

(b) Includes concrete, asphaltic pavement, brick, rock, gravel, sand, soil and metal, if used as reinforcement in concrete, but does not include special waste, hazardous waste, glass or other metal.

**\*\*A.R.S. 49-701.01 (B)(17)**

A. “Solid waste” means any garbage, trash, rubbish, waste tire, refuse, sludge from waste treatment plant, water supply treatment plant or pollution control facility and other discarded material, including, liquid, semisolid or contained gaseous material.

B. The following are exempt from the definition of solid waste:

17. Inert material.
