

**Li-Fire**  
Fire Suppression Solutions

## SPECIFICATION

### Product material

- Ultra-fine glass fiber
- Two side silicone coated

### Product Size

3' x 3' / 6' x 6' / 16' x 16'  
20' x 20' / 23' x 23'  
20' x 27' / 20' x 30'

### Weave Type

Plain/Twill/Satin

### Packing

Red PVC bag or customized

### Thickness

0.45-0.48mm

### Weight

480g/m<sup>2</sup>

### Heat Resistance

550-1000°C

## DESCRIPTION

The Car Fire Blanket is made of 100% Ultra-fine glass fiber and two-side silicone coated.

It has very good performance on heat resistance and corrosion resistance. It enables us to contain the flames, smoke, and toxic fumes in a car fire in seconds.
