Intended Use:

Made specifically for the Fire & Rescue Industry. Mighty Struts are designed to lift or stabilize vehicles quickly and safely. Saving time when it matters most.

FEATURES

- Powered by a drill battery (Milwaukee, DeWalt or Makita variants available).
- Operation performed by single switch.
- 4-in-1 Combo Head, no extra attachments to lose.
- Includes 3 extensions to accommodate a wide variety of applications.
- Made with aircraft grade materials to reduce component weight.
- Each strut comes in its own bag to reduce carrying weight to just 52 lbs.
